Purpose
Why we exist?

Enrich people’s lives through sharing Abu Dhabi

Promise
What we deliver?

At DCT we promote, protect and progress Abu Dhabi as a cultural and tourism destination. Visionary at heart, sustainably driven – collaborating to succeed.

Principles
How do we deliver?

We... lead	We... protect	We... enable	We... collaborate	We... care
We drive our industry forward with vision, embracing new ways of thinking, leading transformation across sectors and providing stewardship to those we work with.	As guardians of our culture, heritage and language, we protect Abu Dhabi in all aspects – proud of our Emirate’s heritage and honoured to have the responsibility to preserve it.	We create the foundations for success through fair and effective regulation, shaping and governing the industry – inspiring the confidence and security to truly realise opportunities.	We always work together closely, building trusted relationships with partners locally and globally, knowing that when they succeed, Abu Dhabi does too.	We love sharing Abu Dhabi with the world - our work is our passion. We care for the destination we call home as we care for those we work with. Led by our values we strive to leave a better home for future generations.

To ensure our logo is always legible and displayed with pride, use the following rules.

Clearspace
We measure our clearspace with the X height of the DCT wordmark. Always use the artwork file provided.

Minimum size
Minimum size in print is to be determined based on the print test of the new logo
Minimum size in digital is to be determined based on the new logo.

Primary palette

Our primary colour is dawn. It is recognisable across everything we do. Combined with the sophisticated Sandstone and vibrant secondary palette, we create a rich visual language that evokes elements from Abu Dhabi.

Dawn Is how DCT brand is recognised. It is vibrant, warm and distinctive. Dawn should be present across all of our design. HEX F77860 RGB 247 120 96 Pantone 4057 C CMYK 0 65 58 0	Sandstone Plays an essential role in creating a balanced composition across our communications. It should be present across majority of our design and communications. HEX E3DCD3 RGB 227 220 211 Pantone Warm Gray 1 C CMYK 13 13 18 0
Black	White

Let’s conclude

We’ve established a few guiding principles to ensure we treat typography consistently throughout the entire DCT brand.

Things to avoid

-  **Too many weights**
Don’t use too many weights of the typeface when laying out type.
-  **Using wrong typefaces**
Always use our brand typeface for all communications.
-  **Overlapping type and graphics**
Don’t place any type on the graphics to ensure consistency in design and legibility.
-  **Avoid busy layout**
To ensure everything looks structured, considered and hierarchical.
-  **Don’t ignore the grid**
Use the brand grid to achieve optimum results.

Things to achieve

-  **Hierarchy**
Ensure to create a central point and clear hierarchy when working with typography.
-  **Swiss sensibility**
Layout the type to create a sense of space, scale, look for inspiration in Swiss design.
-  **Think creatively**
Don’t be afraid to pull out important information and make it large, make the page sing.
-  **Legibility**
Always make sure the design and colour usage is accessible; use contrasting colours, and sizes.

Section 06:

Imagery

Three things you need to know about our imagery

- Contents
- Brand positioning
- Brand toolkit
- Logo
- Colour
- Typography
- Imagery**
- Graphic system
- Layout system
- Bringing it all to life

3 types of imagery

We use 3 types of imagery: our people, places and experiences.

Use to tell a story

A picture can say a thousand words; we use imagery to tell purposeful and powerful stores.

Reflect our vision

Our photography should always translate our ambitious vision and strategy. Showing our unique culture and innovation.

- Bringing it all to life

Photography considerations

We use these principles to guide our image creation or curation for our flagship materials. Each of these content streams helps us tell a unique part or perspective of a story.

Effortless engagement
Capture candid, authentic moments in realistic context.

Focal point
Keep it simple with a single focal point, so our audience will understand the message quickly.

A sense of place
Draw the viewer in and create intrigue by capturing a sense of place, space and scale.

Spark the imagination
Use places, experiences and objects to ignite excitement, provoke the imagination and spark creativity.

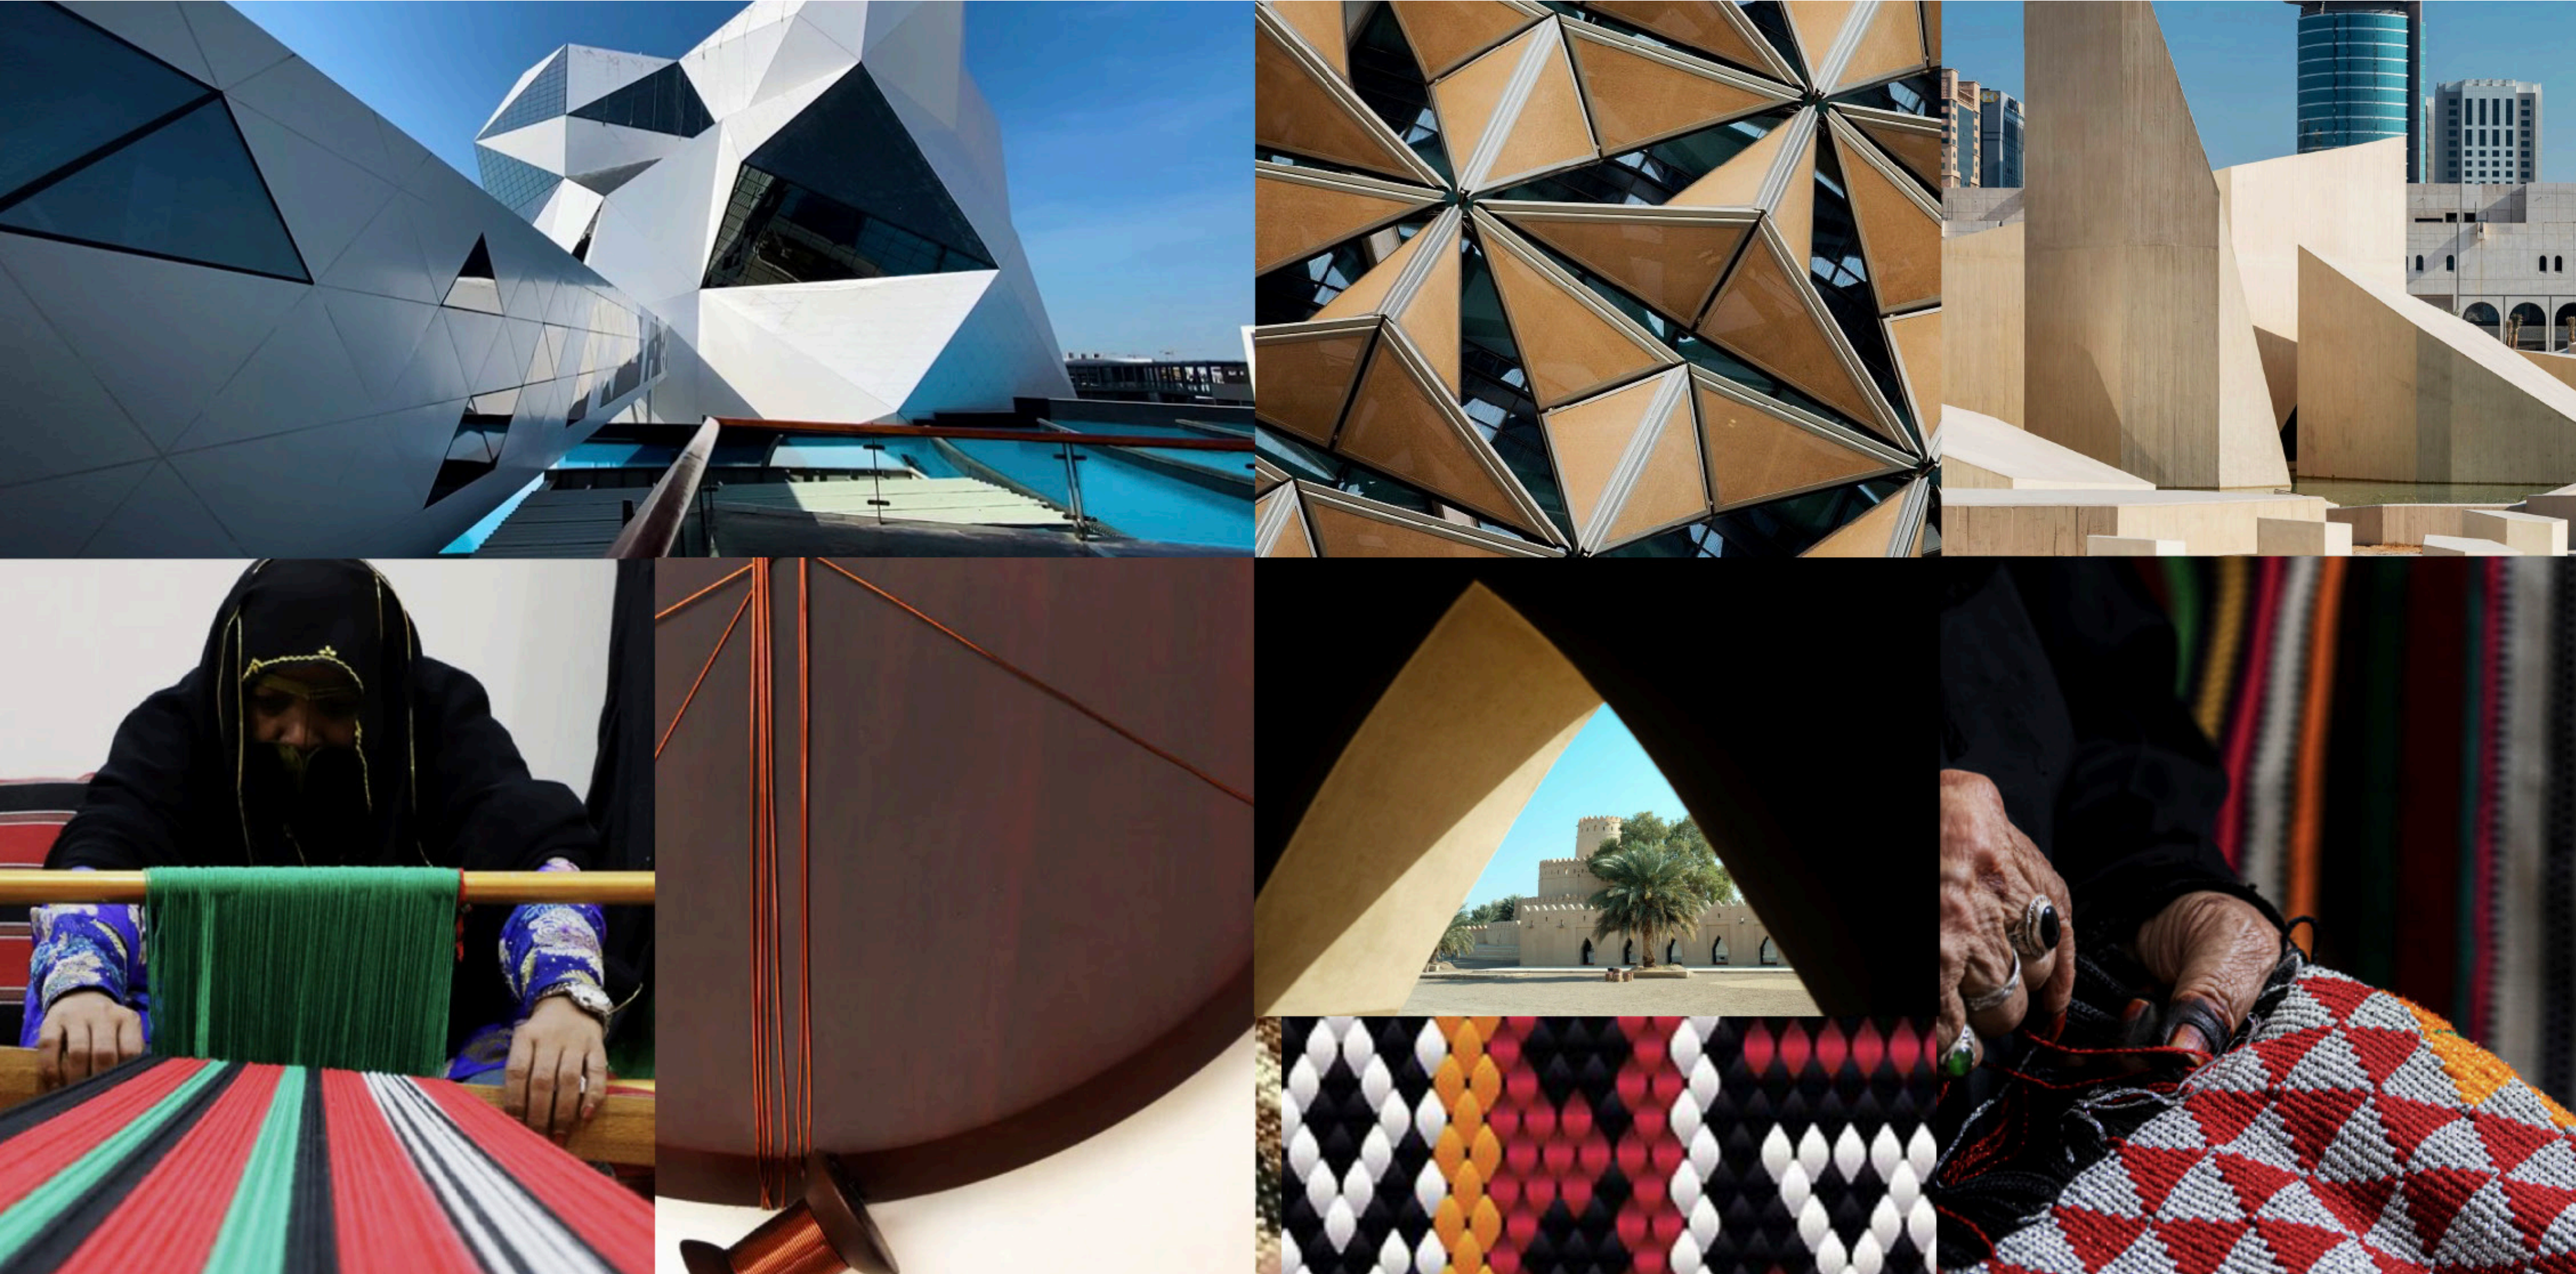

Group engagement
Show interaction to symbolise collaboration and passion.

Breathtaking views
Utilise the beauty of Abu Dhabi to communicate the vision of DCT successfully.

Graphic system

Our visual language was inspired by the intricate craftsmanship of Abu Dhabi's cultural and architectural elements: weaving the story of Abu Dhabi together

Hero shapes

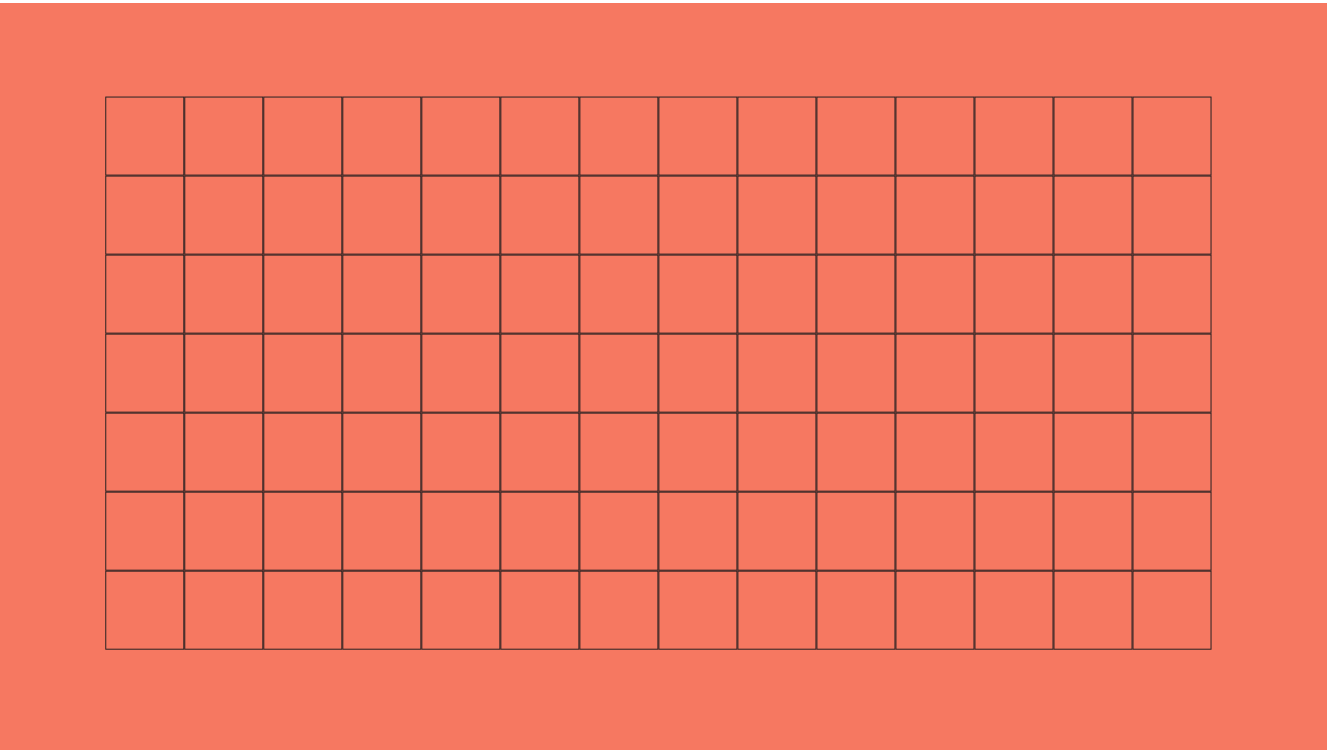

There are three main hero shapes in our brand: **Quadrant, Diamond and Square.** These are the only shapes we use to build our graphic devices.

Our hero shapes are inspired by Abu Dhabi. They represent DCT and our partners coming together as a collective, and in a considered formation become messages, patterns, icons and stories.

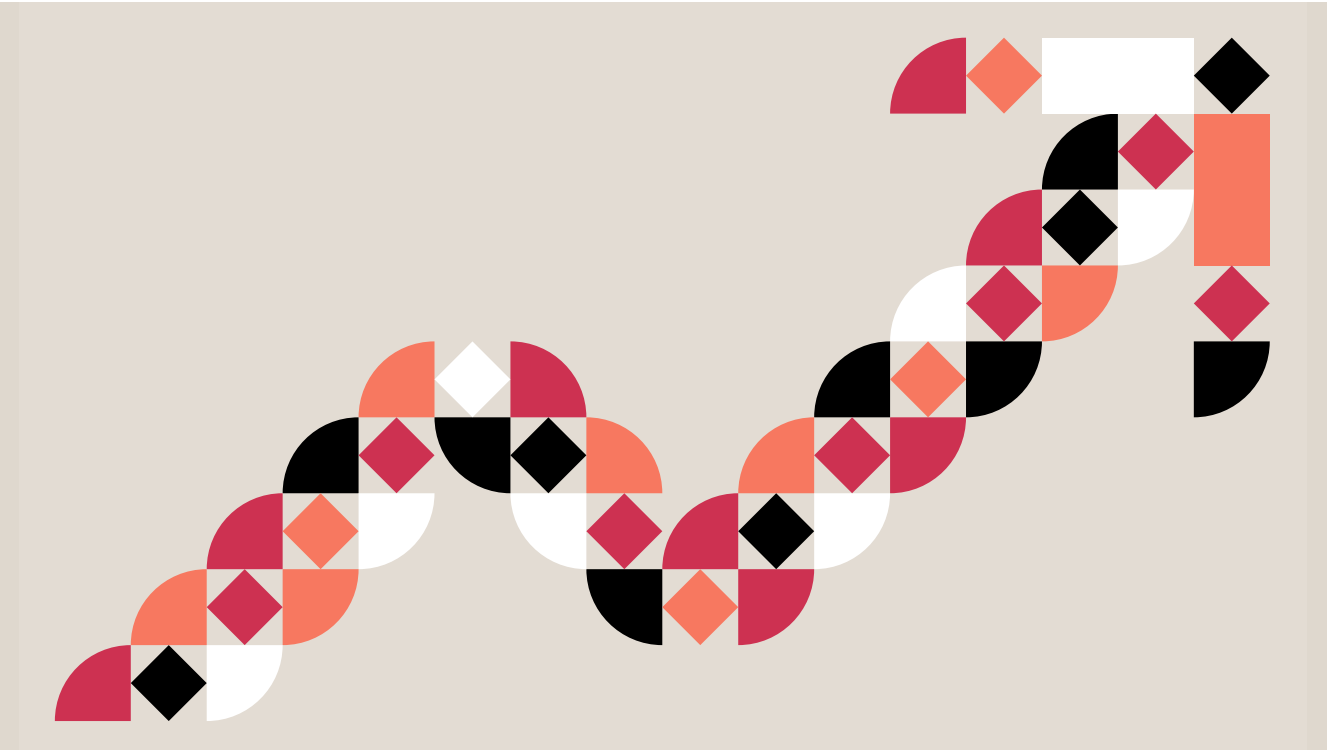

Graphic system
Hero shapes

Three things you need to know about our graphics

All graphics are created on a simple grid
We use grid to ensure continuity, providing a flexible structure. Everything in the graphic system is built on the foundation of the grid.

We use our graphics in different ways
We have a flexible and versatile graphic system. To speak to a variety of audiences, we have 4 types of graphic treatments. Each playing a role to create an exciting and future-proof visual language.

Our graphics make us recognisable
Our bold graphic system creates a continuous and constant brand presence across all of the communication channels.

There are 4 types of graphic devices in the DCT brand

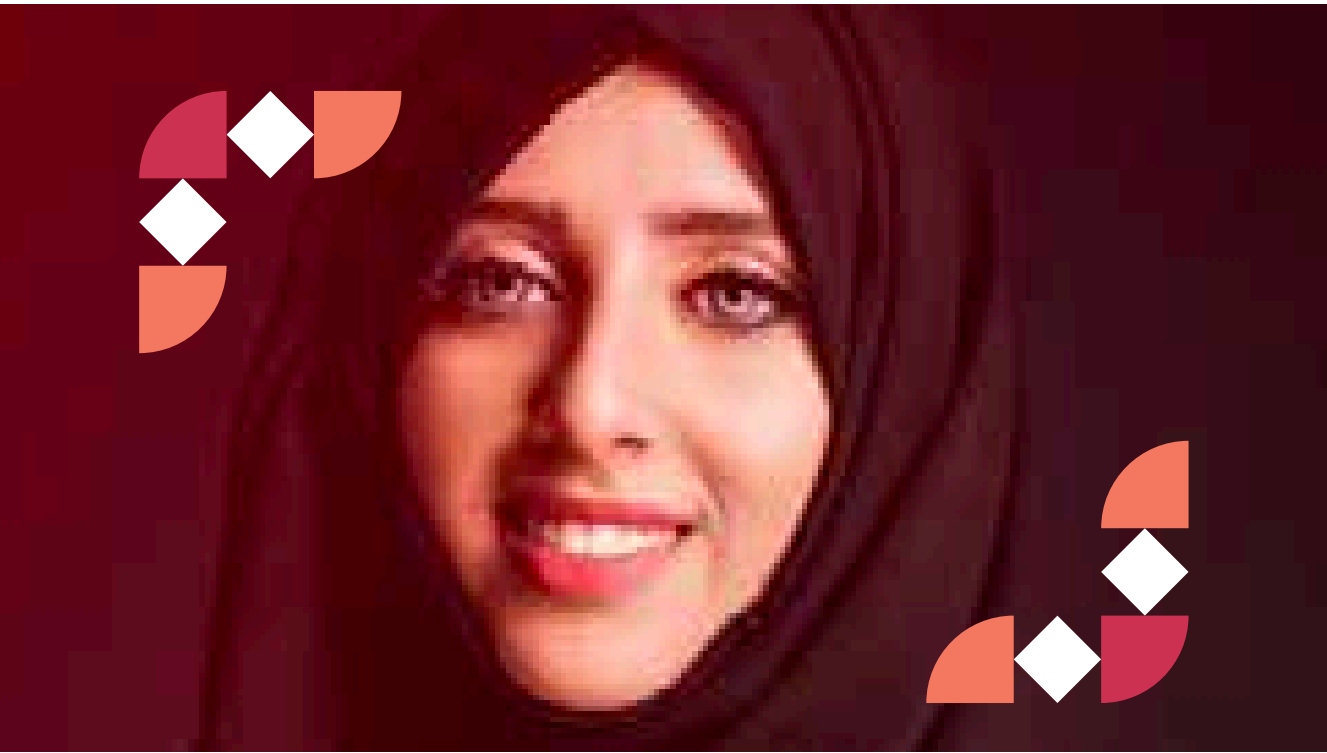

- Contents

- Colour
- Typography
- Imagery
- Graphic system**
- Layout system
- Bringing it all to life

Our pictograms serve as primary brand assets. They create a sense of DCT spirit across all of the communications. They act as our primary storytelling device, easily communicating both abstract and literal concepts.

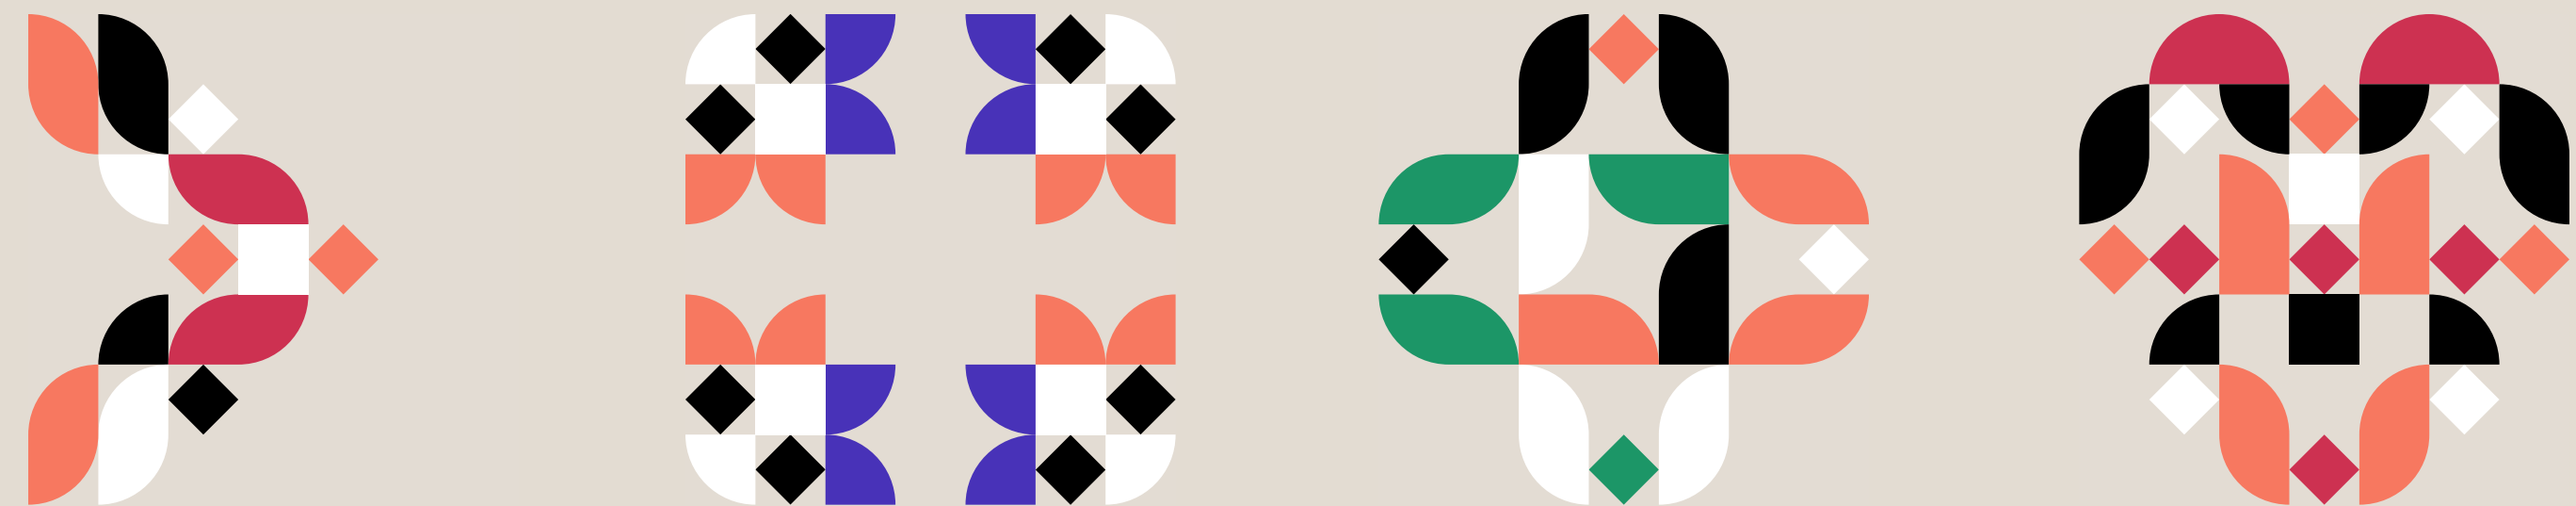

1. Pictograms

Our pictograms can explain both abstract concepts and literal depictions

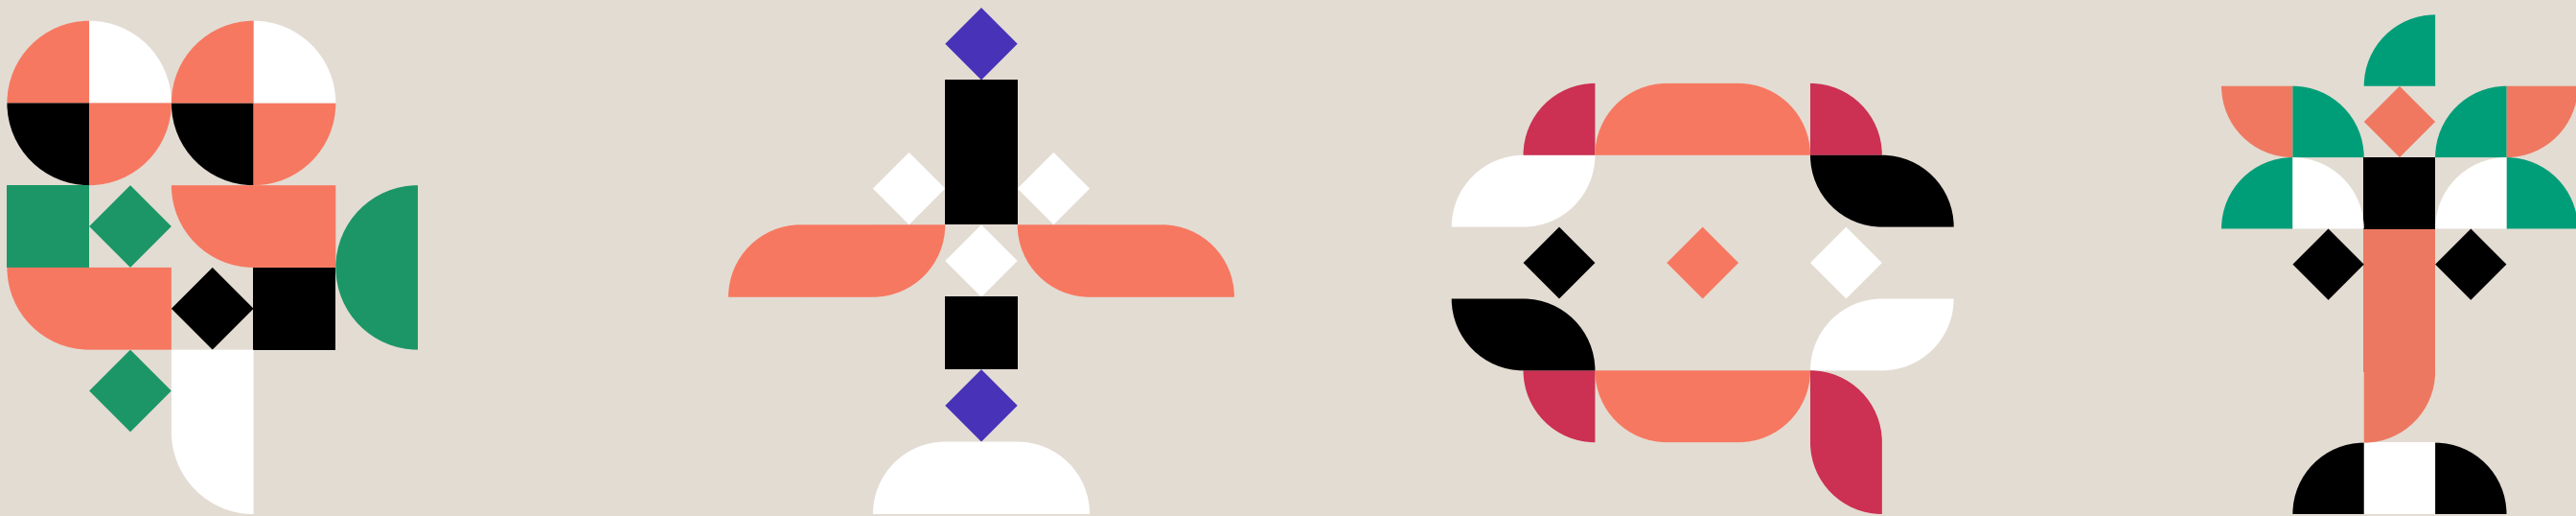

Storytelling pictograms

To be used when telling a DCT story, highlighting values or creating an emotional symbol.

Literal pictograms

To be used to represent the actual content and visualise data in a more engaging way.

Film

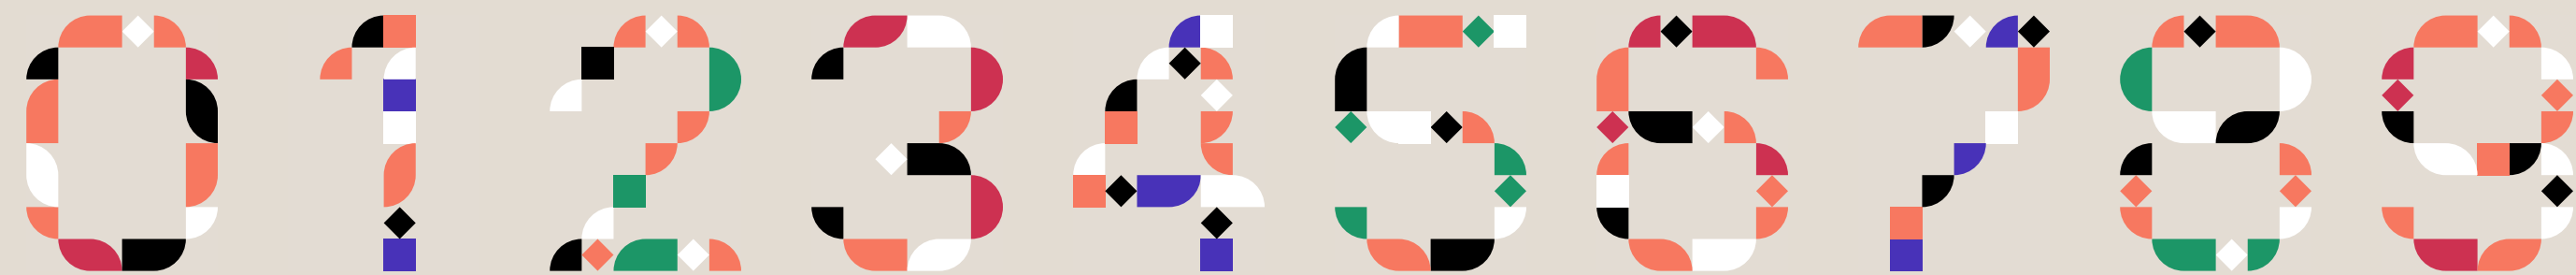

Plane

Dialogue

Palm tree

Numerals

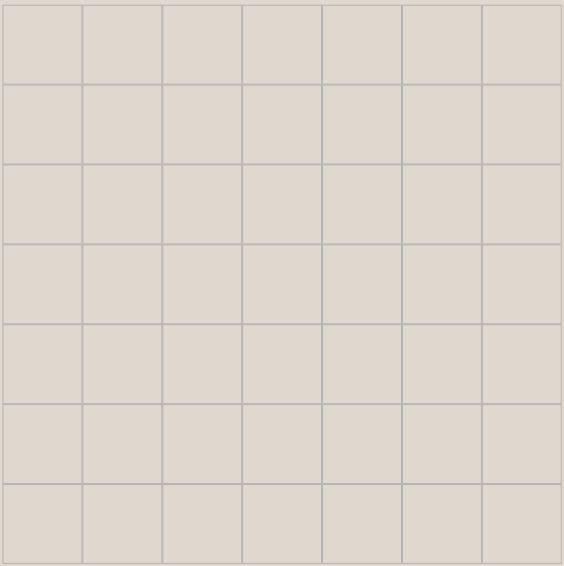

To be used when visualising data, in editorials and PowerPoint. Do not recreate the numbers and always use the artwork files provided.

How we create our icons & pictograms

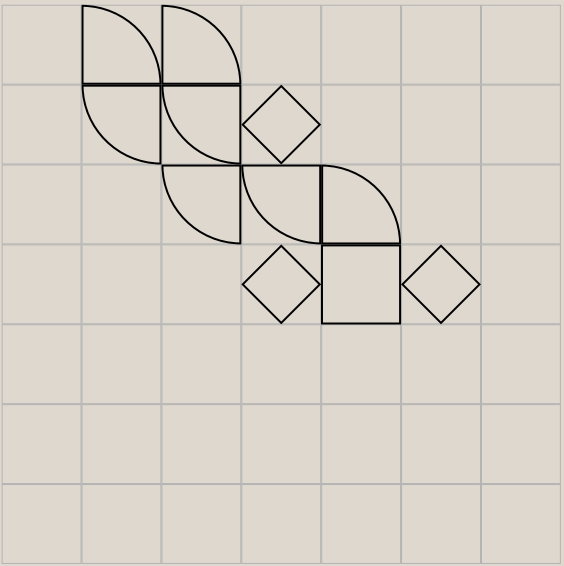

Icon base grid - 7X7

Our base grid for all current and future icons is 7X7.

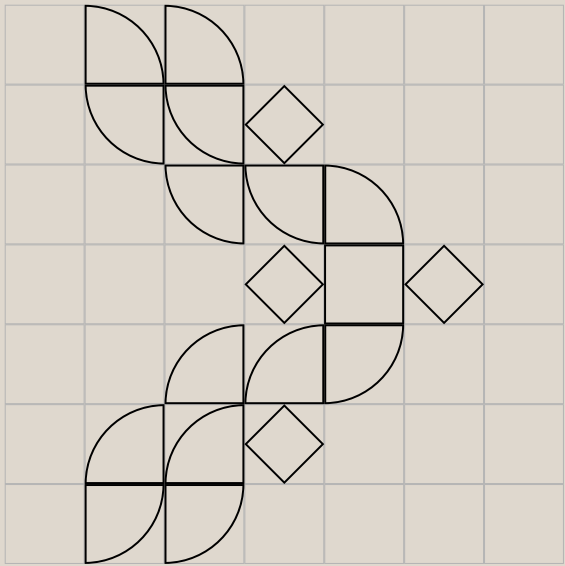

Building the base

Use our 3 hero shapes to build the icon.

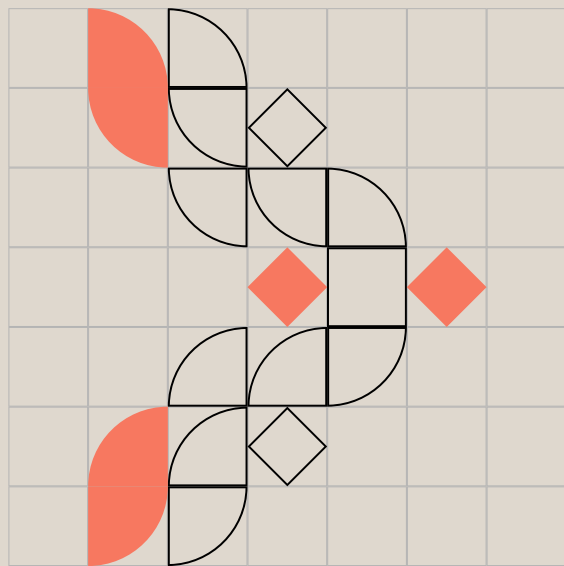

Building the object

Continue with the left side.

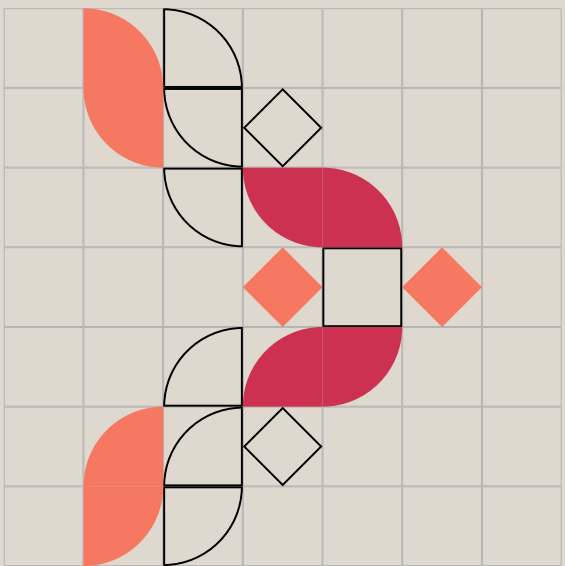

Reflection and symmetry

Duplicate the shape to create symmetry in the icon.

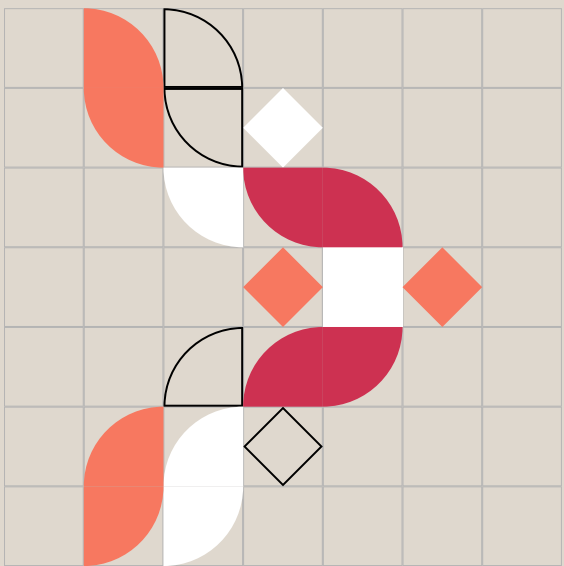

Applying colour - primary

Start filling the icon with colour by applying DCT Dawn to the shapes. Make sure the application is symmetrical. (Apply sandstone if the background colour is Dawn).

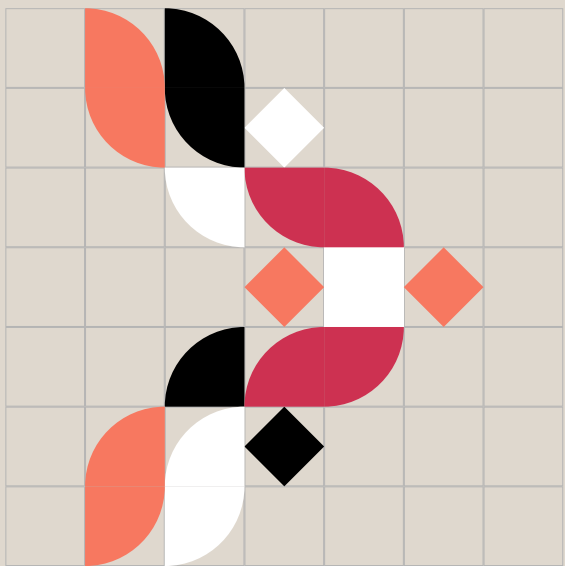

Applying colour - secondary

Continue by adding an secondary colour. Apply it strategically to counter balance the primary colour.

Applying colour 3

Add white. Use white as a palette cleanser in places that need the viewers eye to rest.

Applying colour 3

Finally add black. Use black in areas that need definition.

3 shape row rule

We always want to ensure that all three of our hero shapes are present in each icon/pictogram we design. Together they create a sense of collaboration and refer back to the Al Sadu inspiration.

3 colour in a row rule

A colour within an icon/pictogram can't repeat more than 3 times in a row to avoid creating large blocks and retain shape recognition.

Colour application

We want to make sure that each icon is built using Sandstone or Dawn, white, black and a secondary colour of your choice.

Symmetry & mirroring

When filling the shapes with colour, ensure you apply it symmetrically. Left side corresponding with the right side, or bottom part with top part.

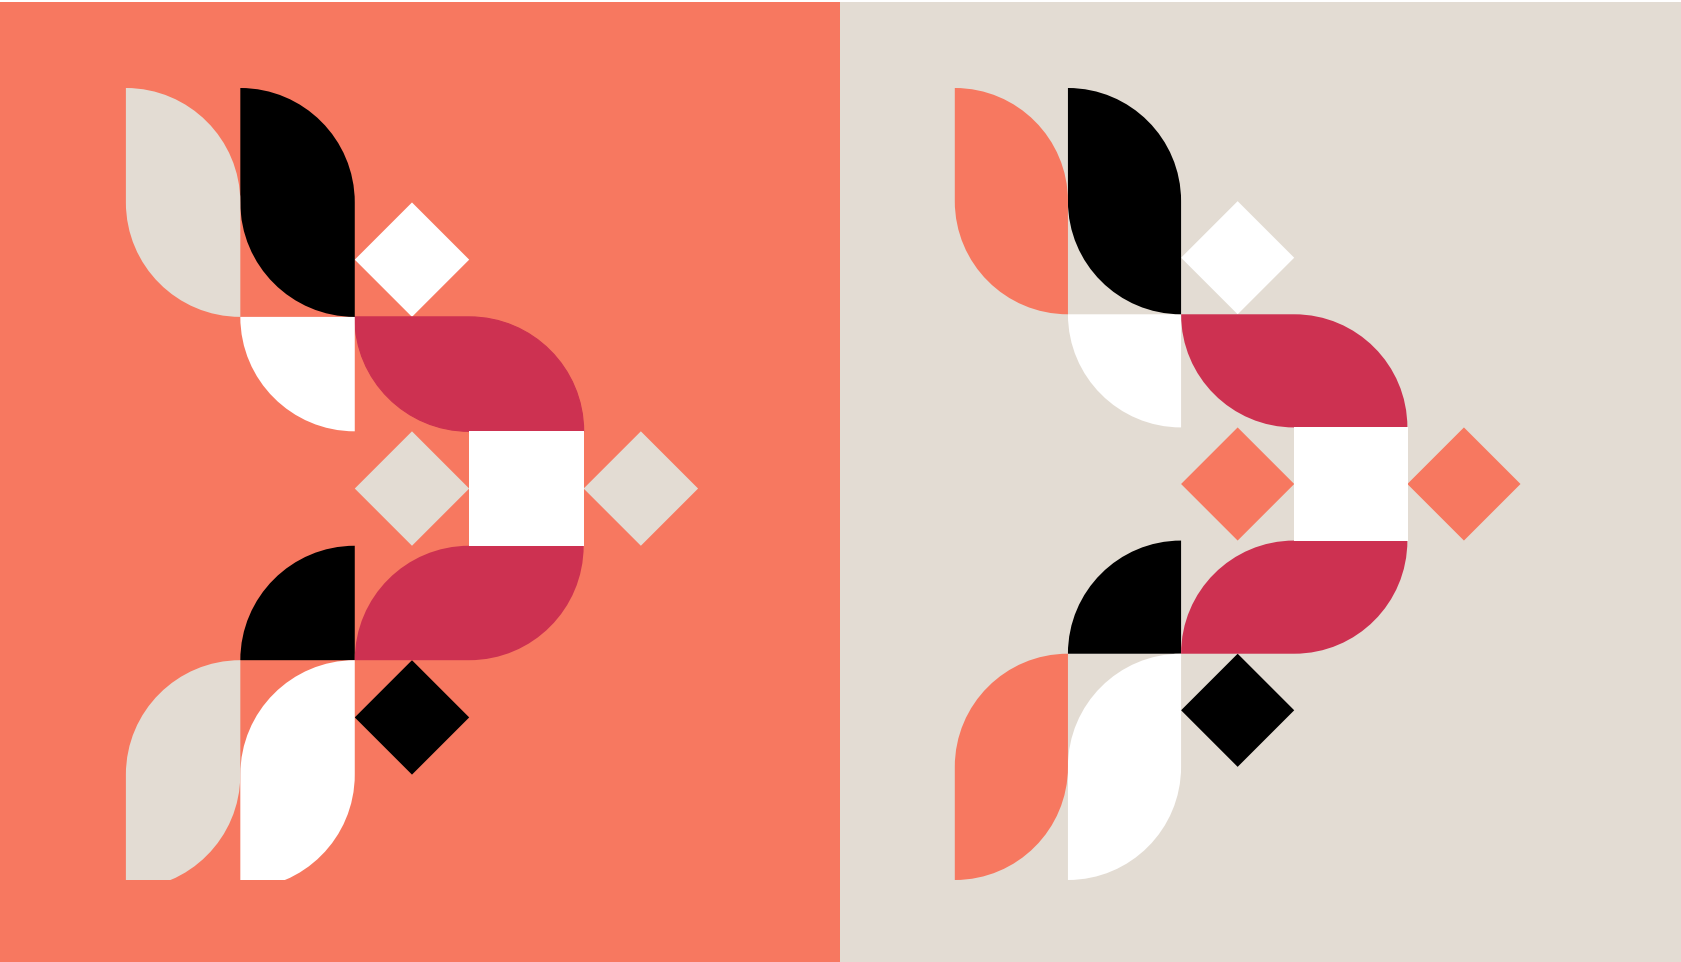

Colour balance

Make sure to use 4 colours in every pictogram, an optically equal balance of primary and supporting colours. Secondary colours should not take over the overall design.

1. Pictograms

We can utilise the our pictograms in the following colour ways.

Full colour
Full colour pictograms should be used on colour background.
(See how to build on page 30)

Transparency
Should be used over imagery.

To create such colouration adjust the opacity of white symmetrically across different shapes.

60% Opacity
30% Opacity
100% Opacity

2. Supergraphics

Supergraphics can easily be applied to create brand presence and recognition.

They can be used as solid graphic, keyline, or an image holding device.

2. Supergraphics

- Contents
- Brand positioning
- Brand toolkit
- Logo
- Colour
- Typography
- Imagery
- Graphic system**
- Layout system
- Bringing it all to life

Applying the supergraphics

Large scale

We use large scale holding shapes / supergraphic format to create a proprietary treatment used for photography on social media channels, digitally and in smaller communication formats. The image can sit inside the shape, or be masked out to affect the outside area.

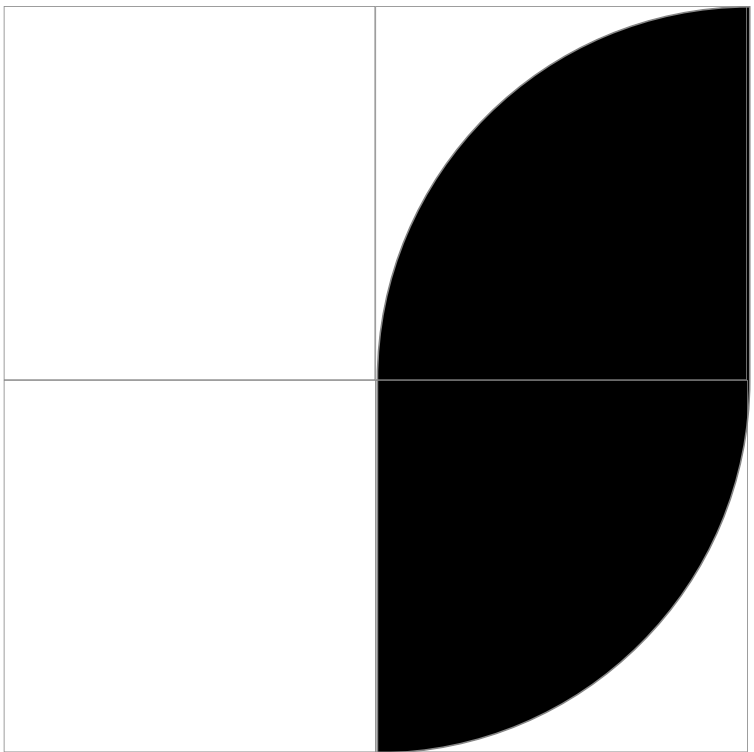

Medium scale

Medium scale is ideal when needing to create a focal point with multiple images on posters, brochure covers and divider pages. The larger shape can be used to hold photography, or present itself as an outline when the full crop is applied to a photograph.

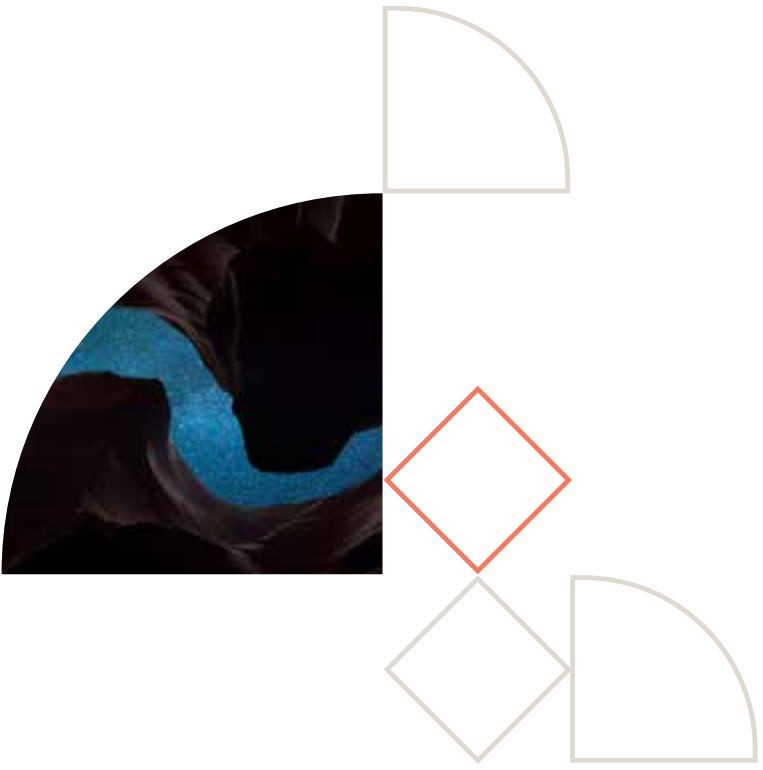

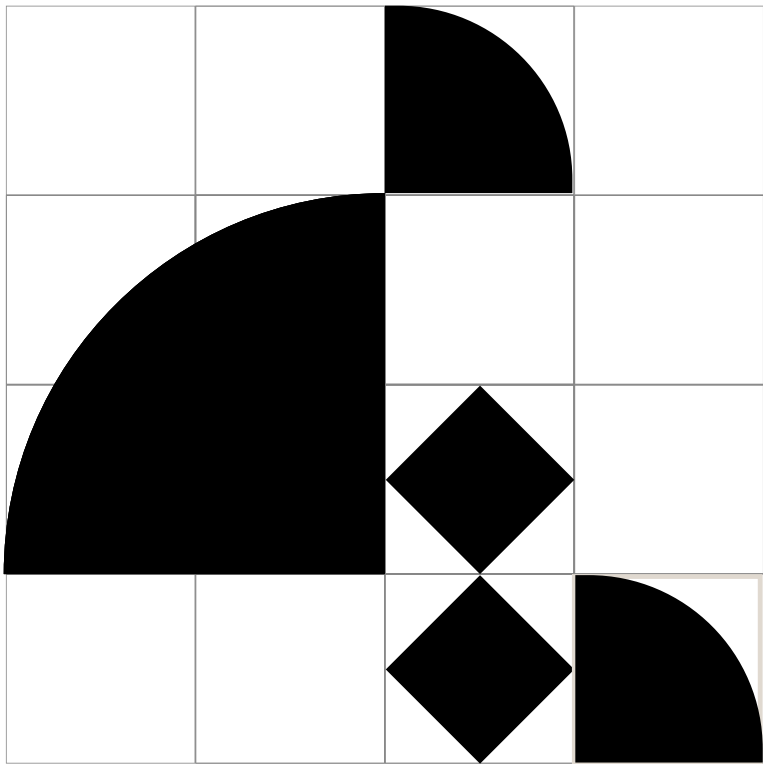

Small scale

Smaller scale is ideal to create brand presence when showcasing partners’ or initiatives’ own photography. It is a great tool to customise layout, add character to photography and create further brand recognition.

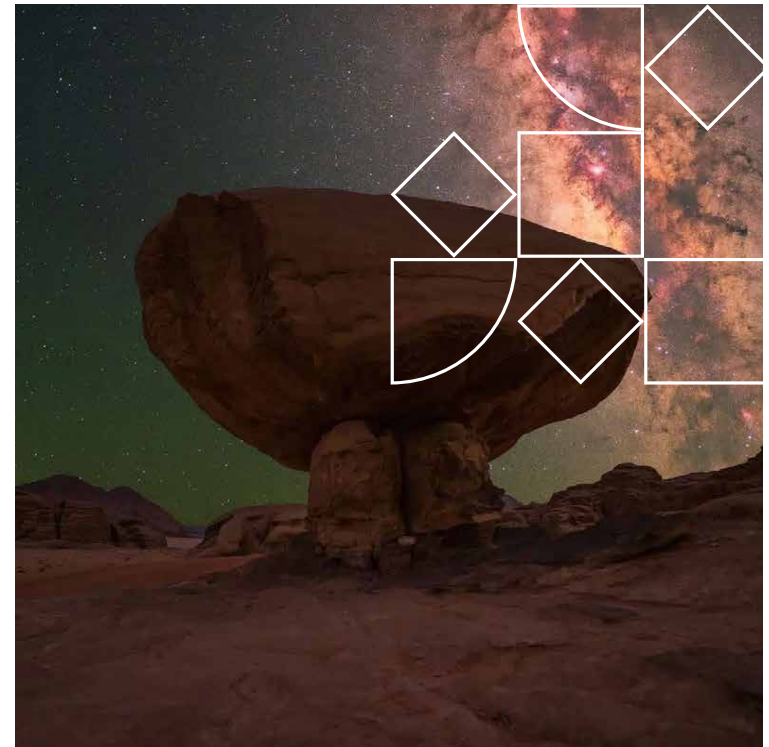

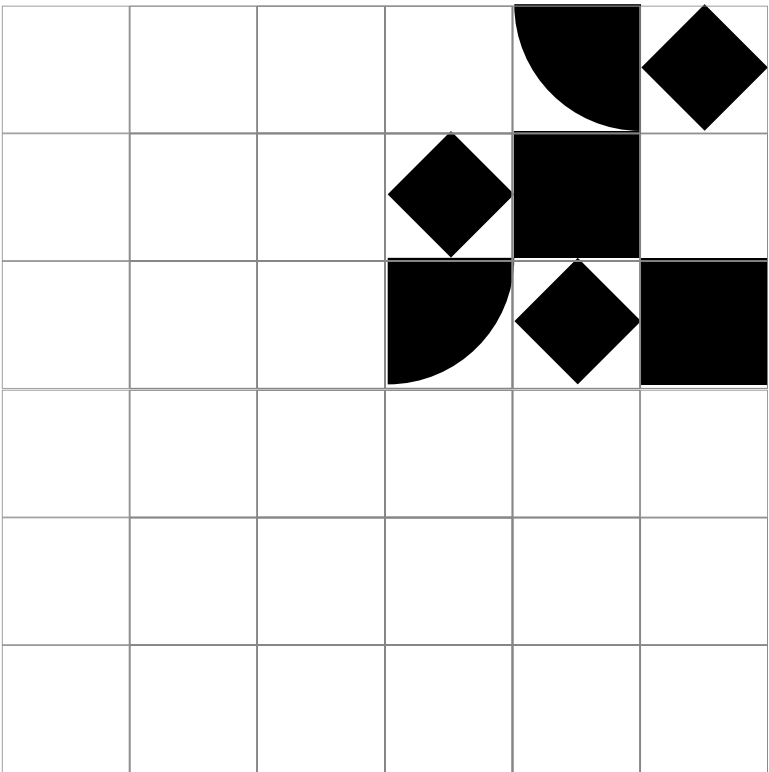

Large scale

Medium scale

Small scale

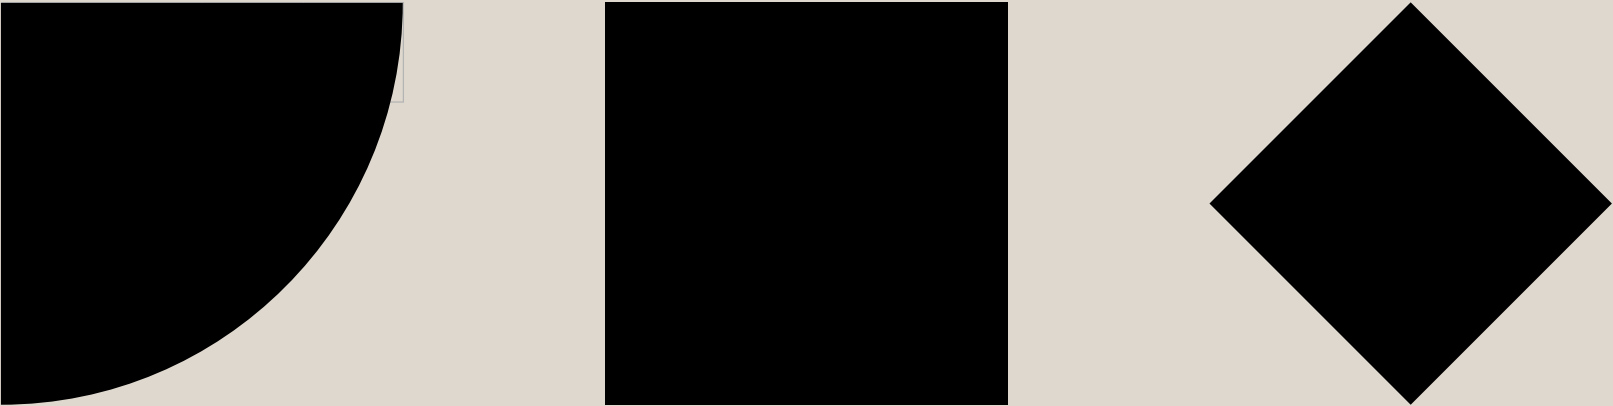

- Contents
- Brand positioning
- Brand toolkit
- Logo
- Colour
- Typography
- Imagery
- Graphic system**
- Layout system
- Bringing it all to life

Templates

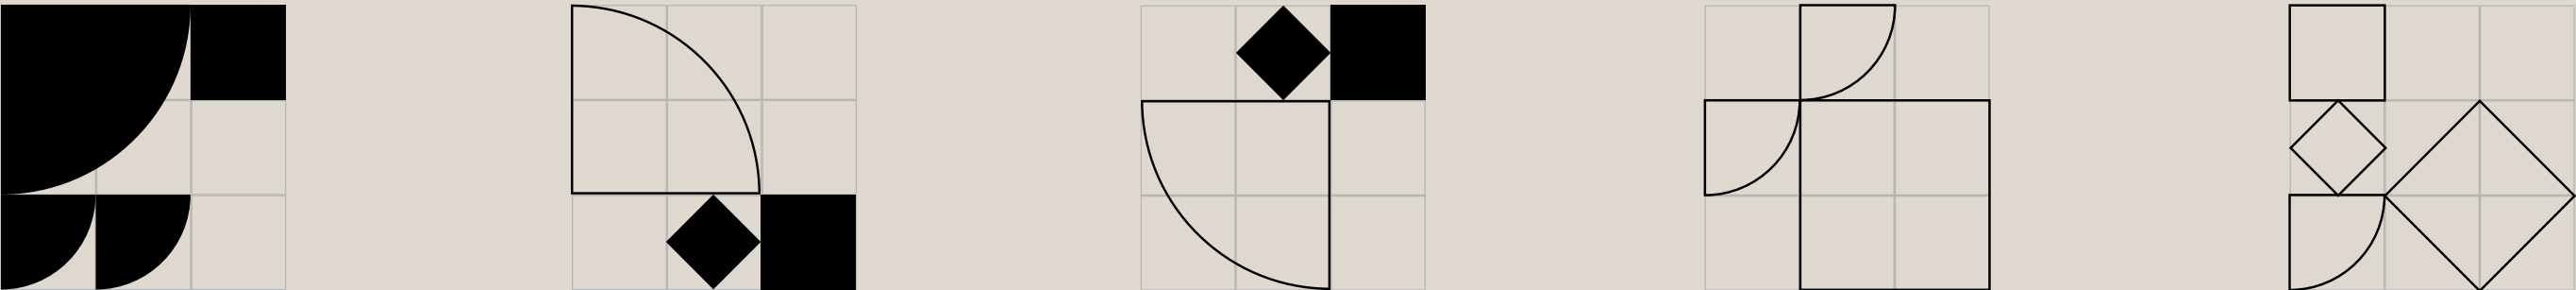

Large scale

Large scale supergraphics can house imagery or be used as colour blocks over imagery.

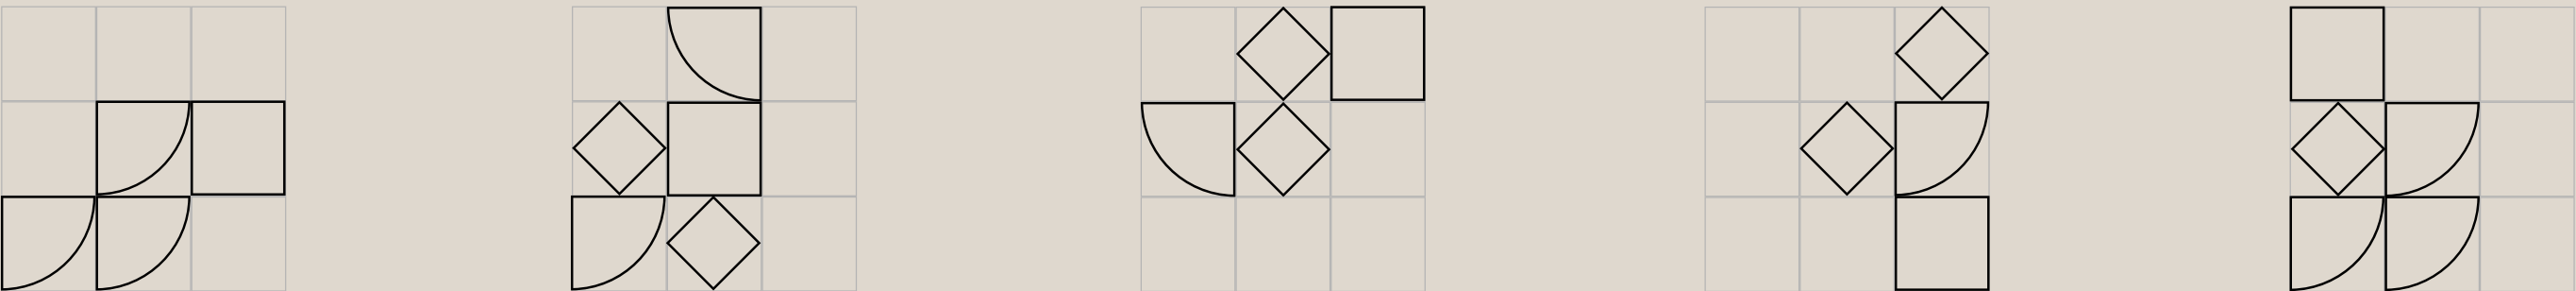

Medium scale

Medium supergraphics can house imagery in an accent shape or in the entirety of the shapes. Filled in shapes represent the image holding area, whereas the rest of the shapes should appear as outlines.

Small scale

Are always used on top of imagery in a form of an outline.

3. Framing devices

We use framing devices to highlight people, landmarks, and important information.

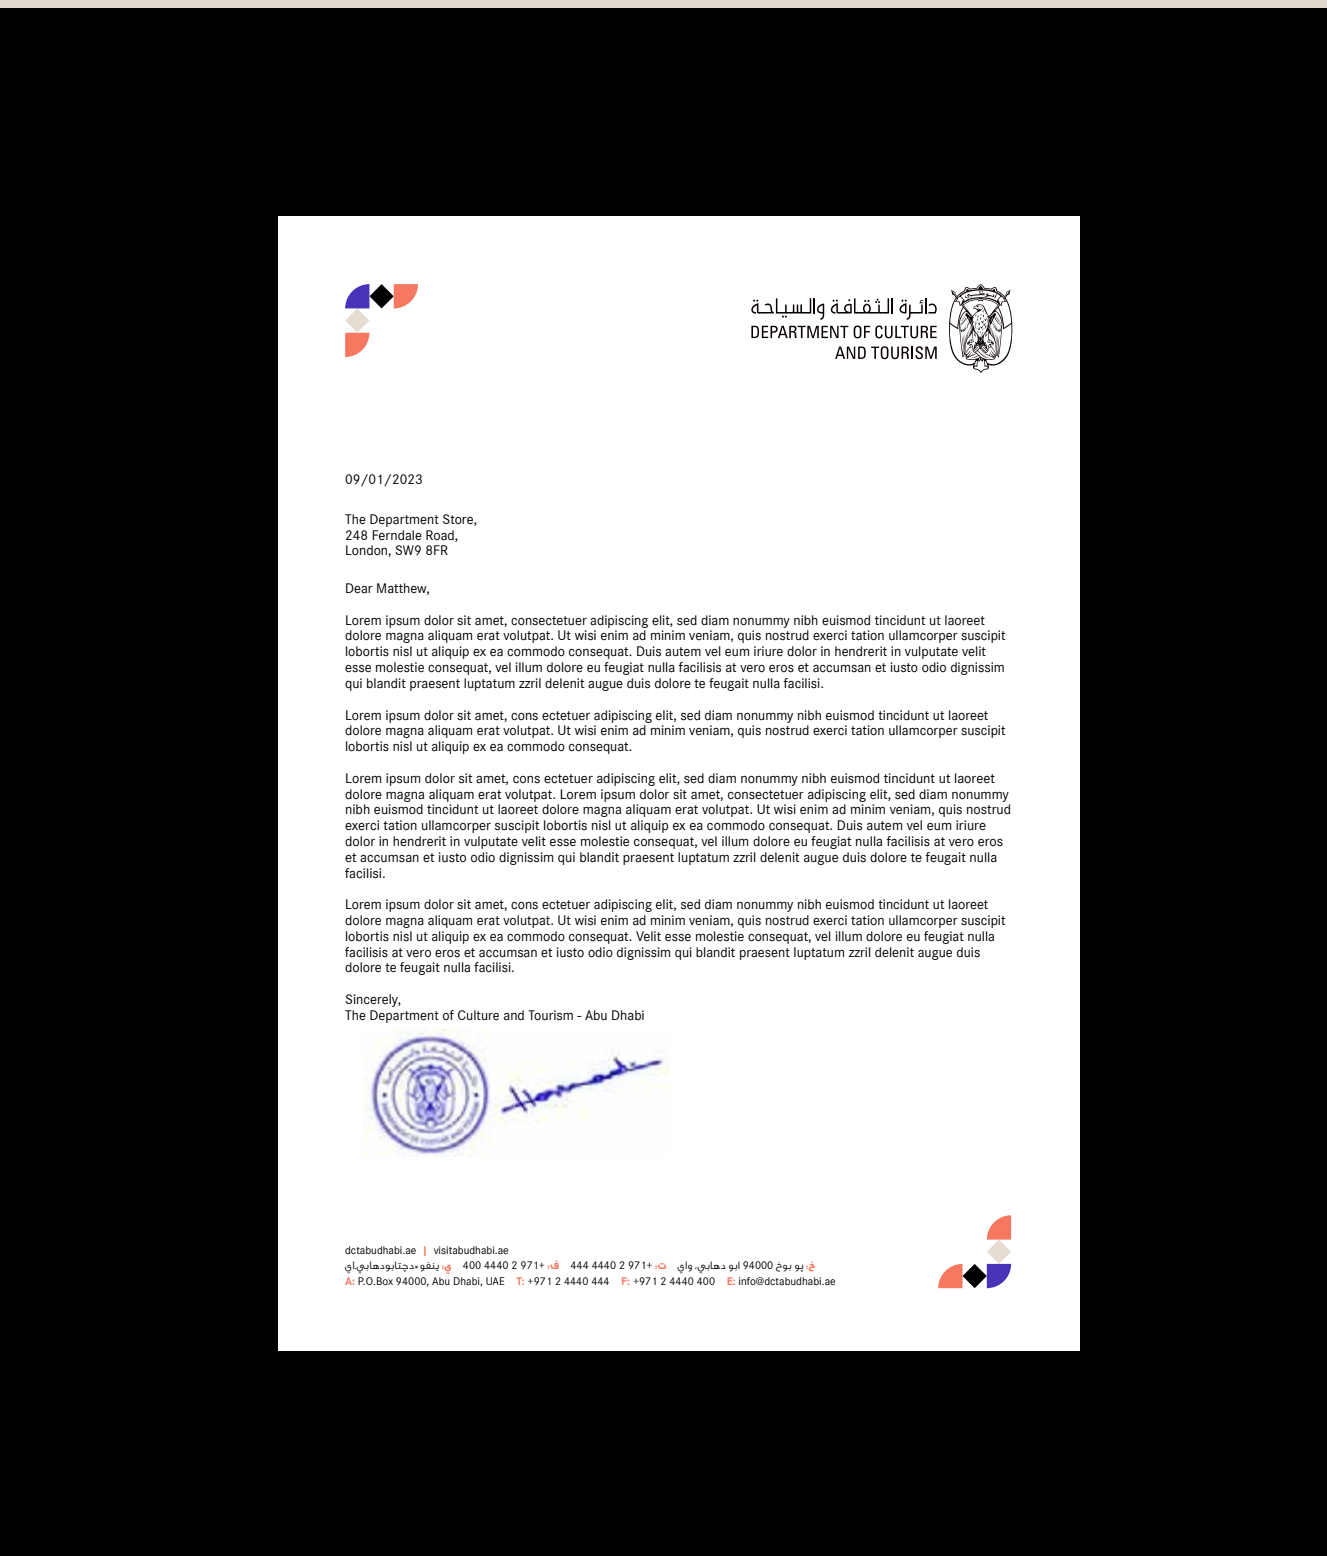

3. Framing devices

We use framing devices to highlight people, landmarks, quotes, and key information.

Quotation marks

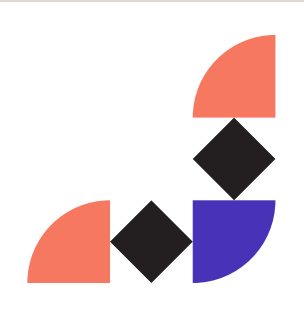

Should be created using two colours and sit on a contrasting background. They can also be used as an outline in white.

Frames

Should be created using four colours and sit on a contrasting background. They can also be used as an outline in white.

Exception

When placed on light photography, diamonds in the frames can be in black, and in white on dark photography.

- Graphic system**
- Layout system
- Bringing it all to life

We have a set of dynamic patterns that range from literal infographic style visuals to more expressive abstract motifs.

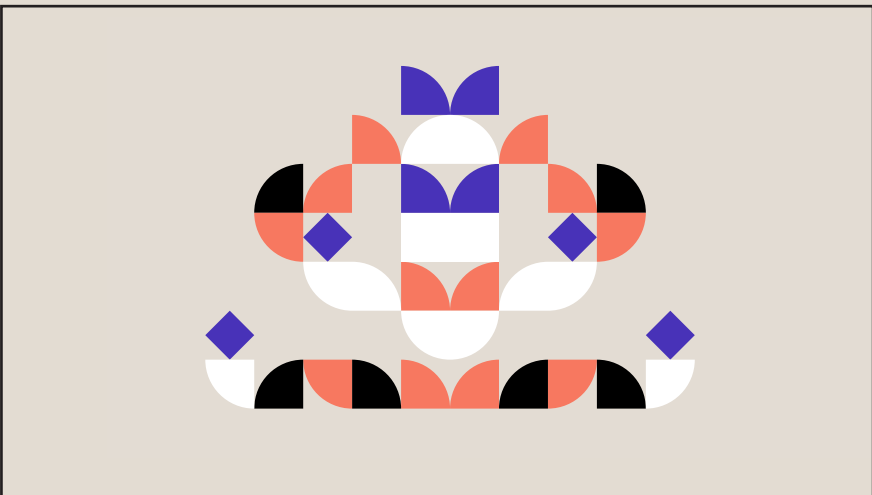

Their role in the brand is to elevate editorial pieces, enrich animations and, at the core, serve as rich storytelling tools.

The visuals on the right should serve as inspiration source, as the system was designed to create a versatile and interesting visual language.

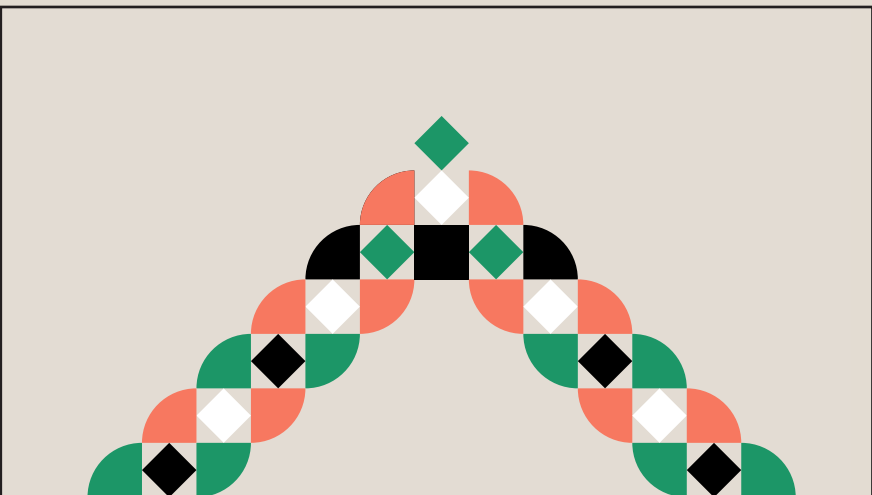

These could be used on things such as: motion graphics, screensavers, double page spreads, murals, PPT.

- Bringing it all to life

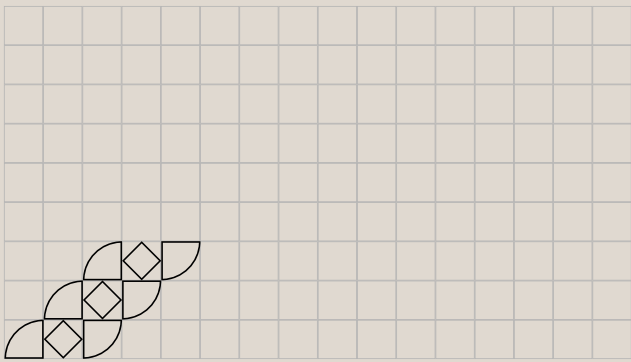

4. Dynamic patterns

How we create our dynamic patterns

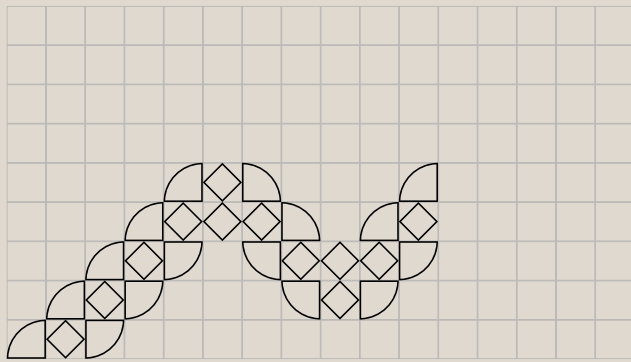

Pattern base grid - 16X9

All patterns start with this grid.

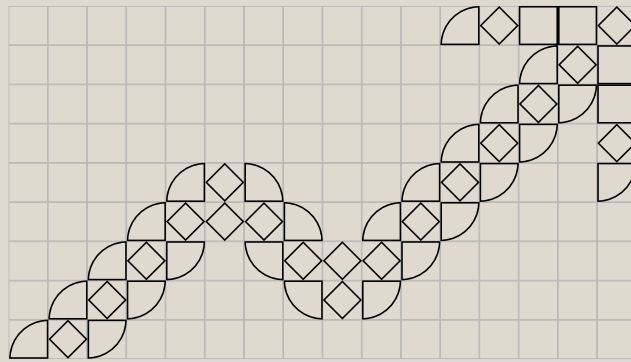

Building the base

Use our 3 hero shapes to build a composition.

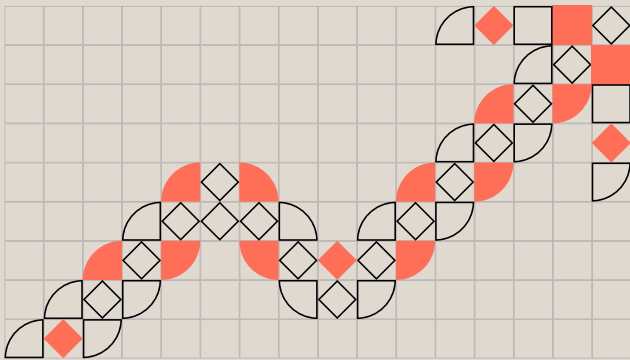

Building the object

Interchange the shapes to make them feel dynamic.

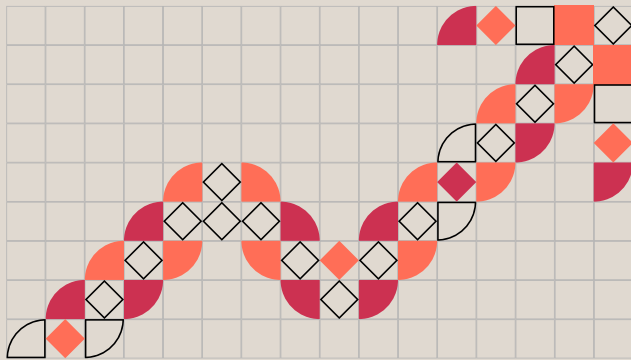

Reflection and symmetry

Mimick the shape throughout to create appearance of symmetry and balance in the pattern.

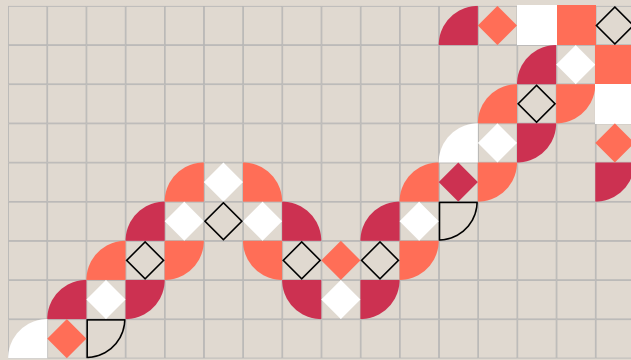

Applying colour 1

Start filling the pattern with colour by applying DCT Dawn to selected shapes. Make sure the application is symmetrical. (Apply sandstone if the background colour is Dawn).

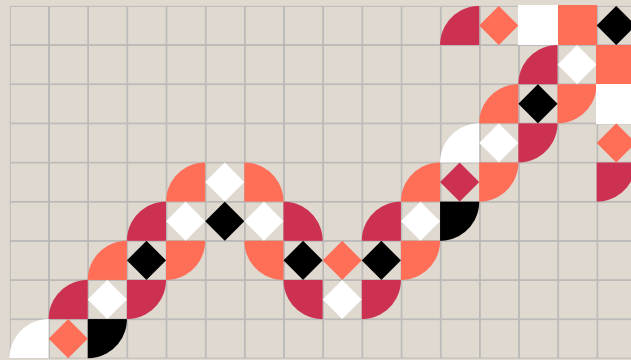

Applying colour 2

Continue by adding a secondary colour. Apply it strategically to counter balance the primary colour.

Applying colour 3

Add white. Use white as a palette cleanser in places that need the viewers eye to rest.

Applying colour 3

Finally add black. Use black in areas that need definition.

3 shape row rule

We always want to ensure that all three of our hero shapes are present in each icon/pictogram we design. Together they create a sense of collective effort.

3 colour in a row rule

A colour within an icon/pictogram can't repeat more than 3 times in a row to avoid creating large blocks and retain shape recognition.

Colour application

We want to make sure that each icon is built using Sandstone or Dawn, white, black and a secondary colour of your choice.

Symmetry & mirroring

When filling the shapes with colour, ensure you apply it symmetrically. Left side corresponding with the right side, or bottom part with top part.

Colour balance

Make sure to use 4 colours in every pictogram, an optically equal balance of primary and supporting colours. Secondary colours should not take over the overall design.

- Bringing it all to life

4. Dynamic patterns - Arabic

Using the grid system from the dynamic patterns, we can also create words in Arabic for when we want to accentuate the region, create stand-out messaging and showcase the breadth of the DCT visual system.

Always apply one word at a time and ensure it is used in large sizes.

These could be used on things such as: office wall art, hoardings, banners.

Grid height is 6 squares

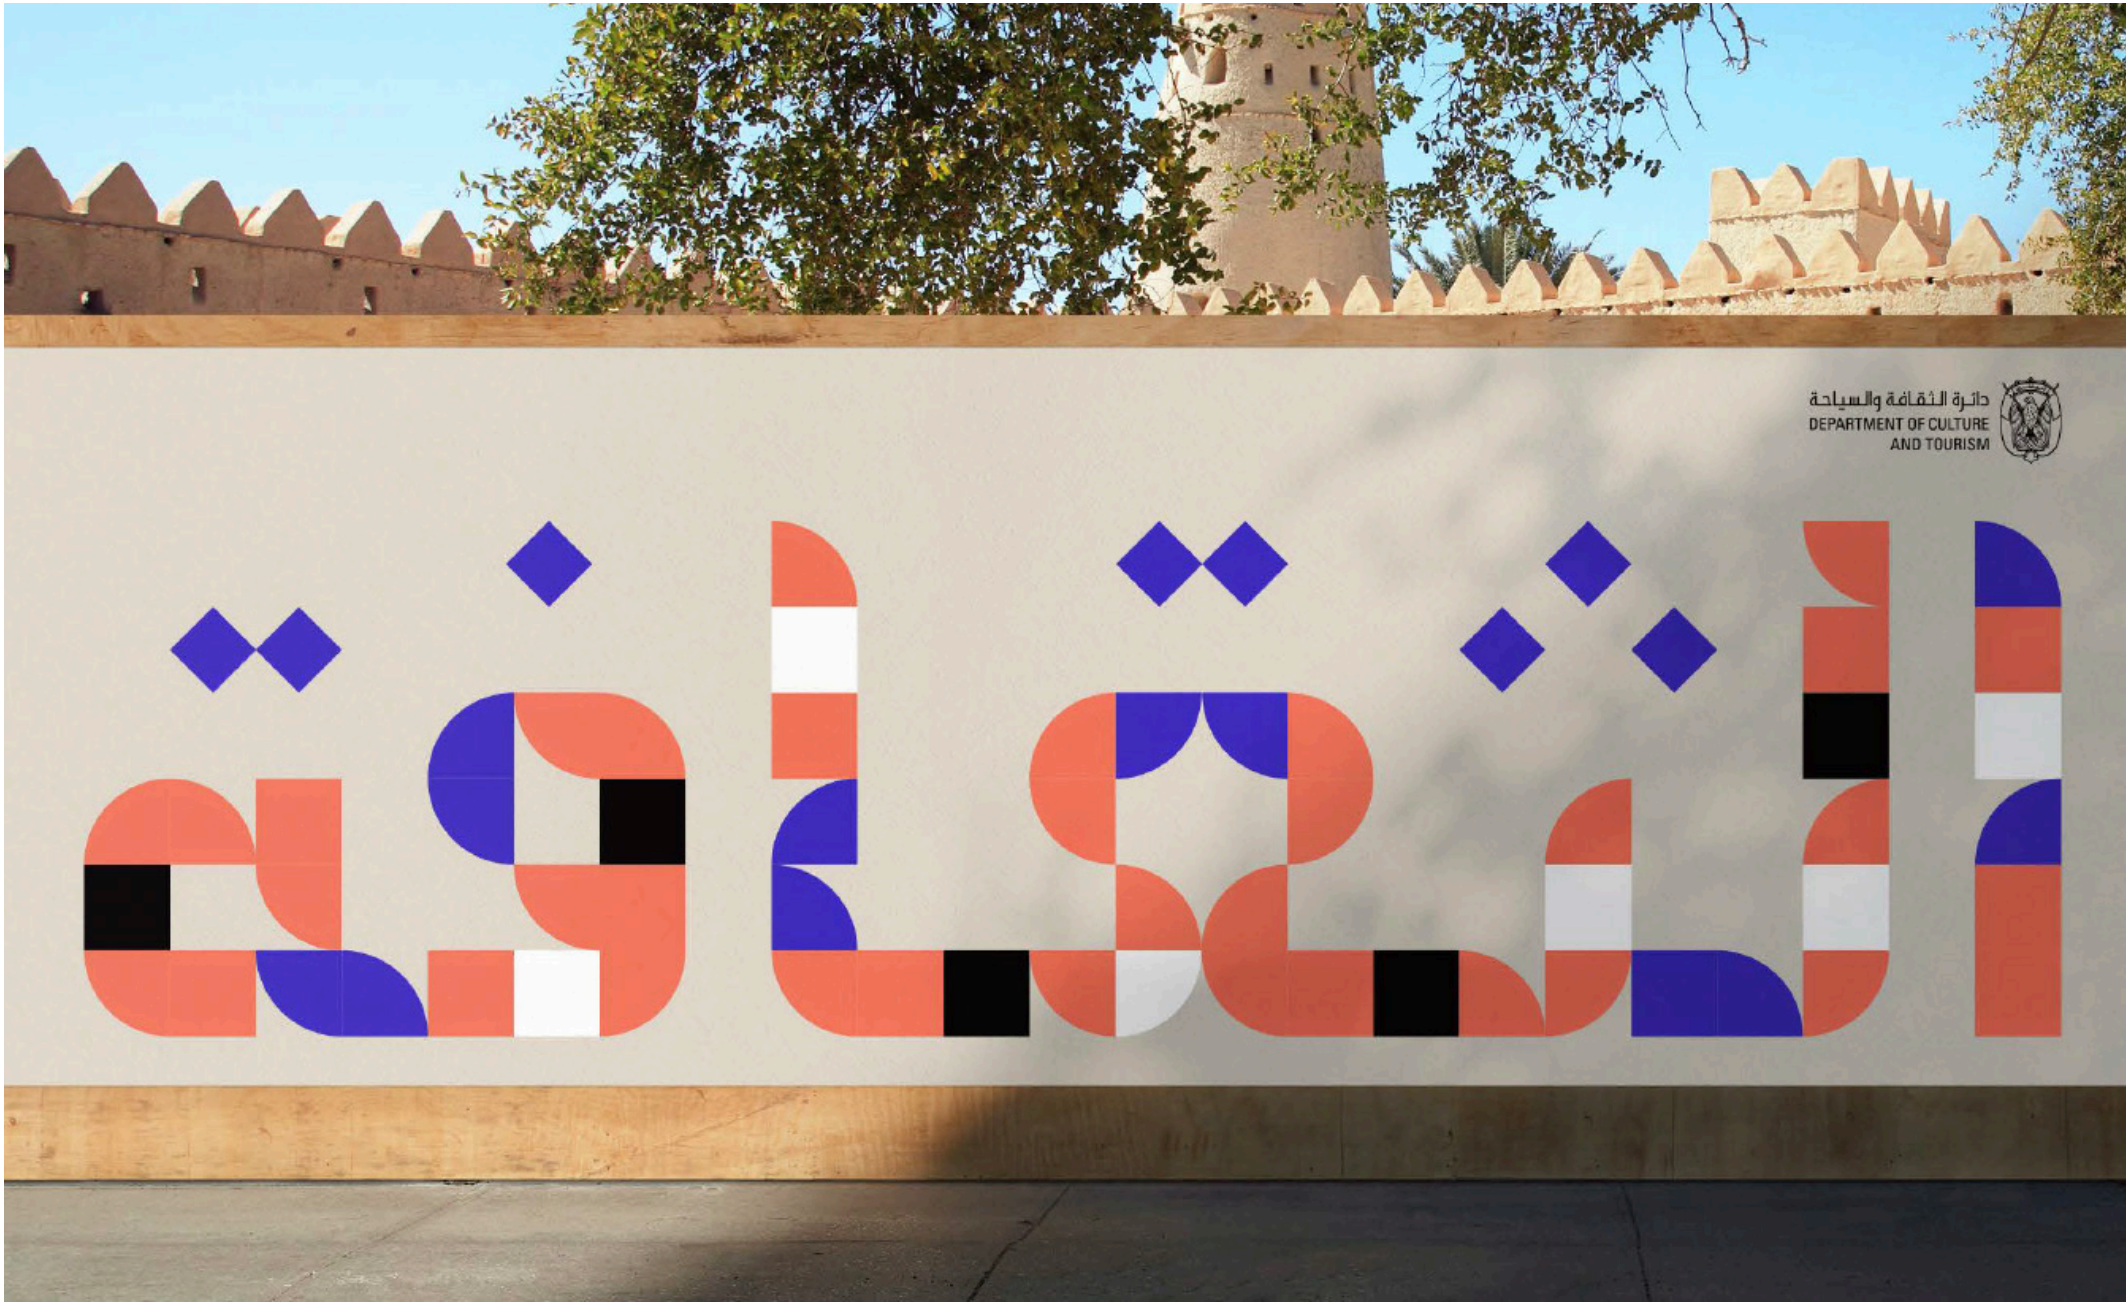

Utilise a 6 square by a variable length grid, depending on the length of your word.

Colour

Colouring the words should be about highlighting parts, not creating an equal balance to achieve legibility.

Graphic system

- Logo
- Colour
- Typography
- Imagery
- Graphic system**
- Layout system
- Bringing it all to life

When small icons are required, simplified linear icons can be created. Leverage the diamond hero shape to create a branded look and feel. These could be used on things such as: UI/UX, PPT, data visualisation, and infographics.

- Contents
- Brand positioning
- Brand toolkit
- Logo
- Colour
- Typography
- Imagery
- Graphic system**
- Layout system
- Bringing it all to life

Let’s conclude

We’ve established a few guiding principles to ensure we treat our graphic system consistently throughout the entire DCT brand.

Things to avoid

-  **Secondary colours**
Avoid using more than one secondary colour when creating custom graphics.
-  **Colour repetition**
Avoid using 3 of the same colours in a row.
-  **New shapes**
Don’t introduce new shapes into the graphic system. Our hero graphics are square, diamond and quadrant.
-  **Don’t ignore the grid**
Use the grid provided to build new graphics.

Things to achieve

-  **Hierarchy**
Think of the visual hierarchy in threes. Always primary focal point, secondary message, and tertiary CTA.
-  **Creativity**
Consider your subject matter and create something fitting the idea. The object you create can be literal, as the technique will elevate the visual.
-  **Use of dynamic patterns**
If the idea is too difficult to translate into a pictogram, make use of the dynamic patterns to elevate the design.

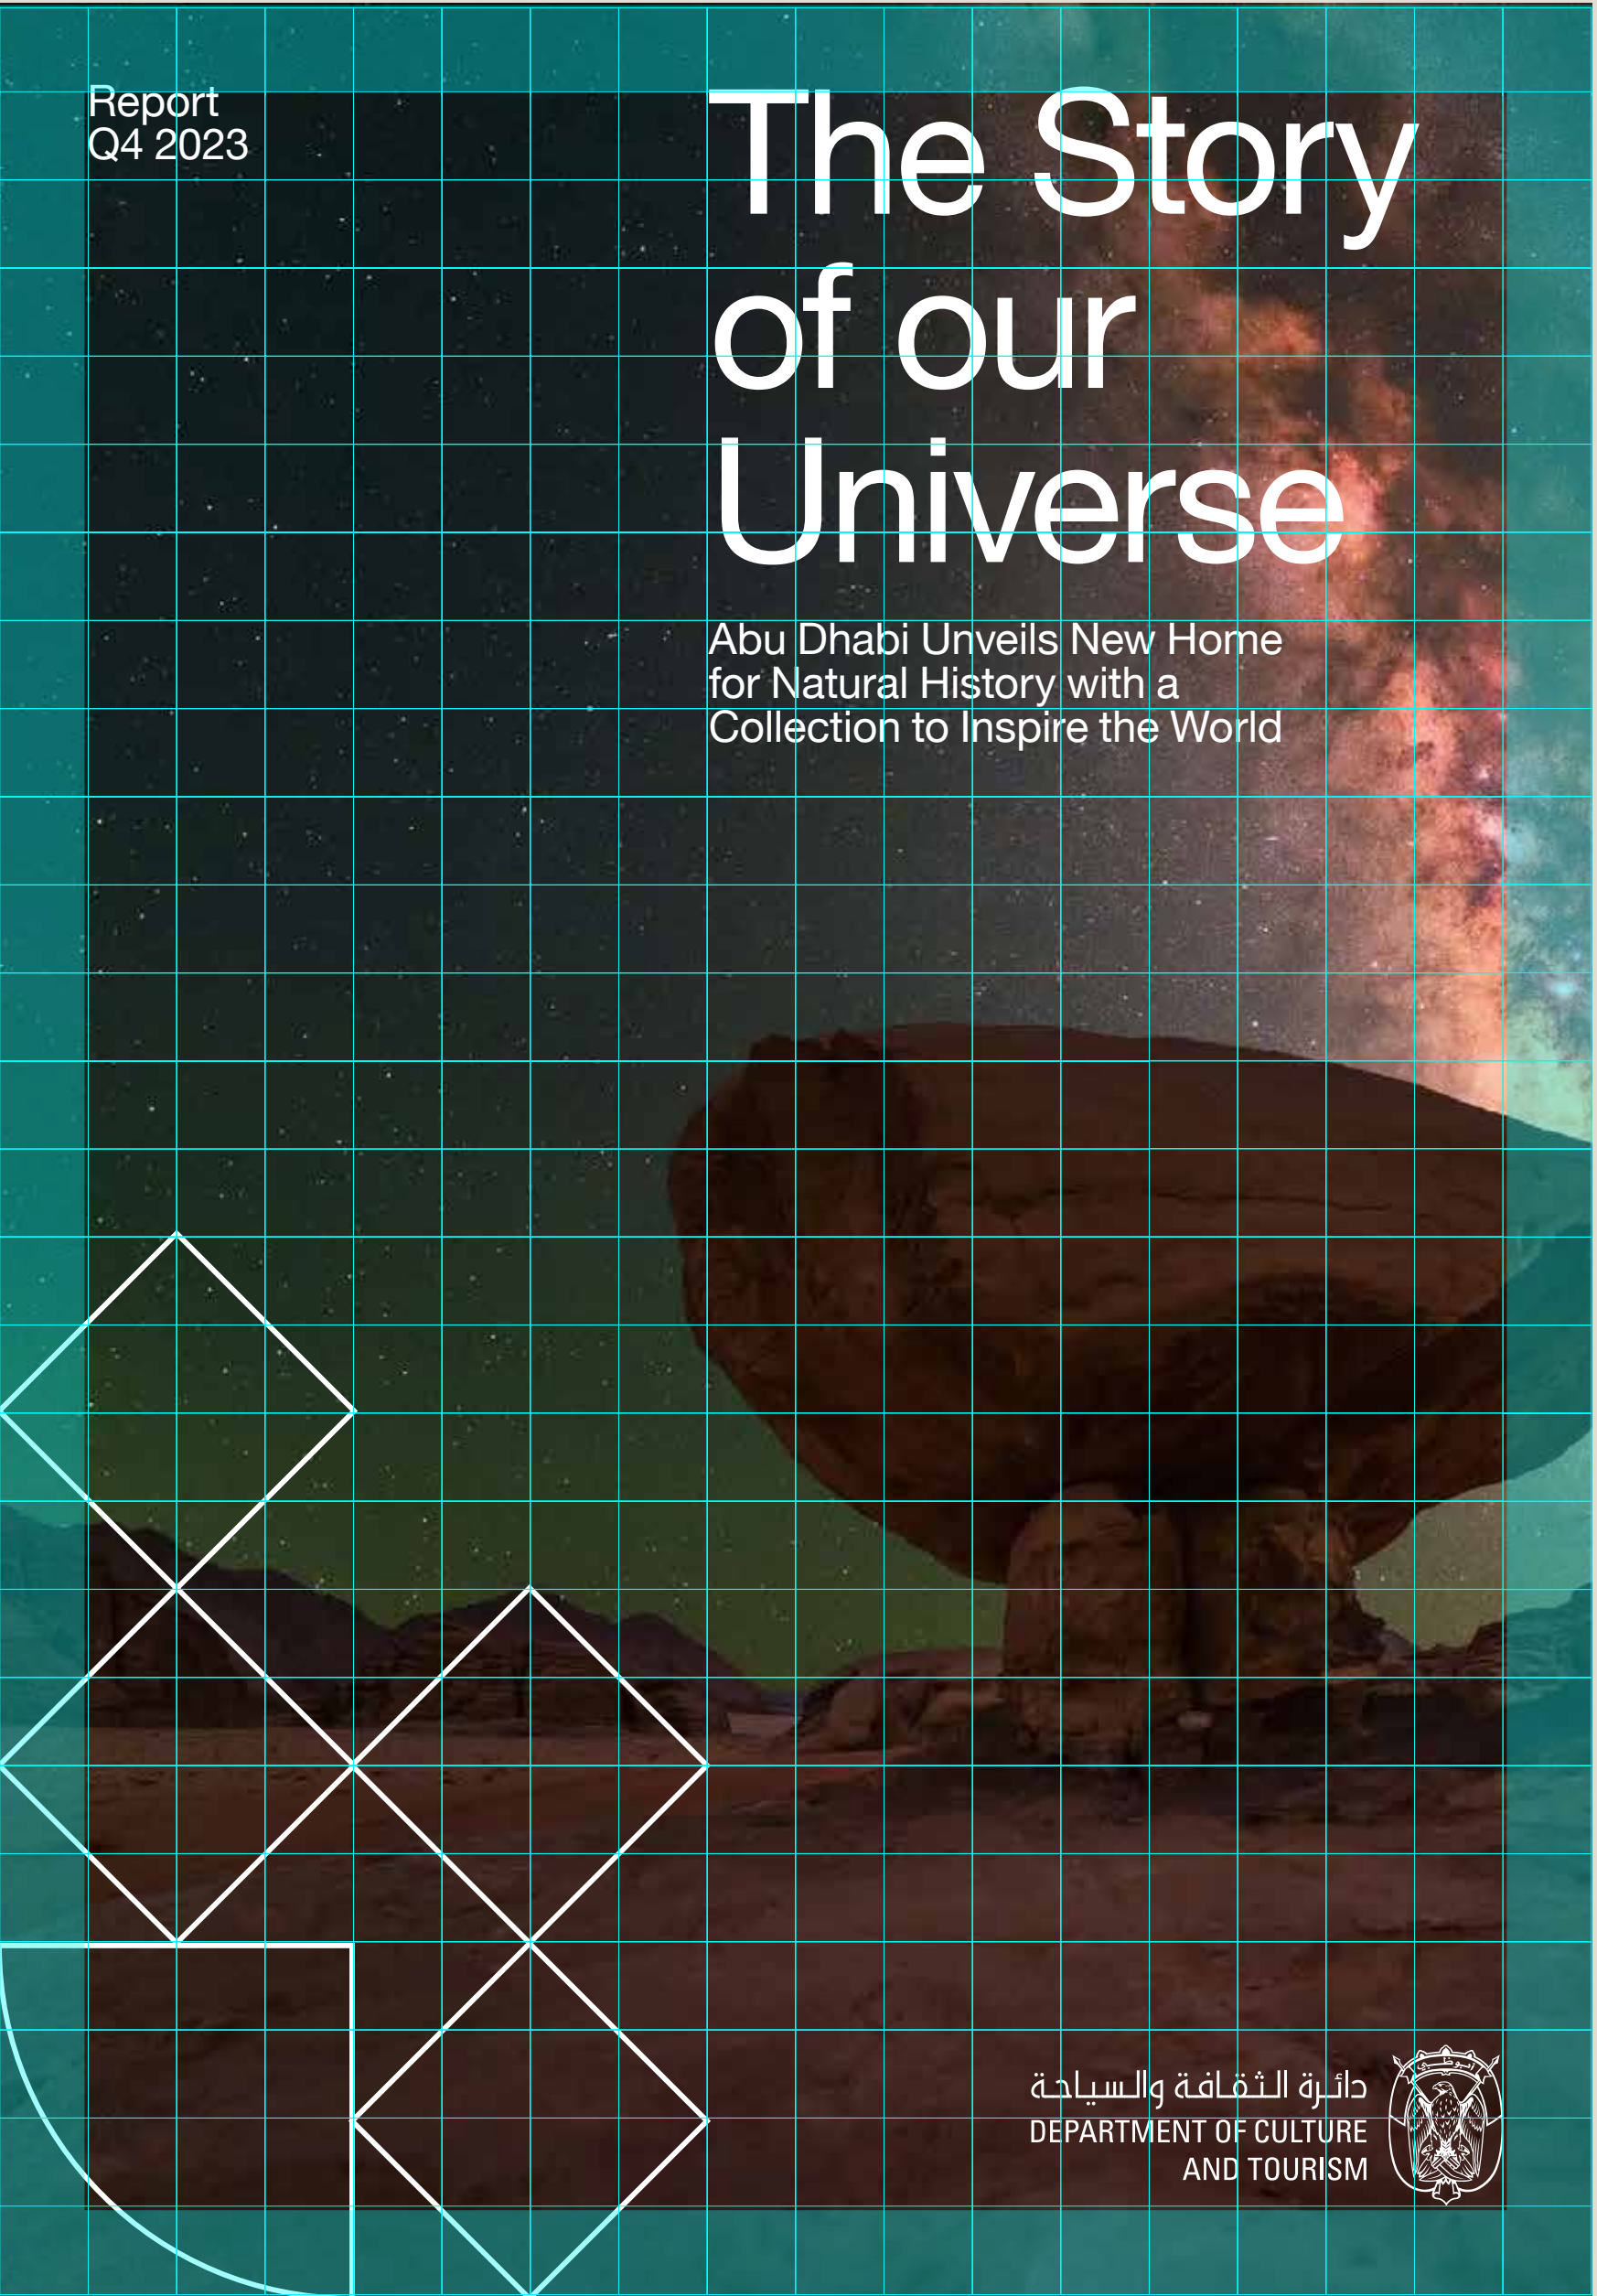

Section 08:

Layout system

- Contents
- Brand positioning
- Brand toolkit
- Logo
- Colour
- Typography
- Imagery
- Graphic system
- Layout system**
- Bringing it all to life

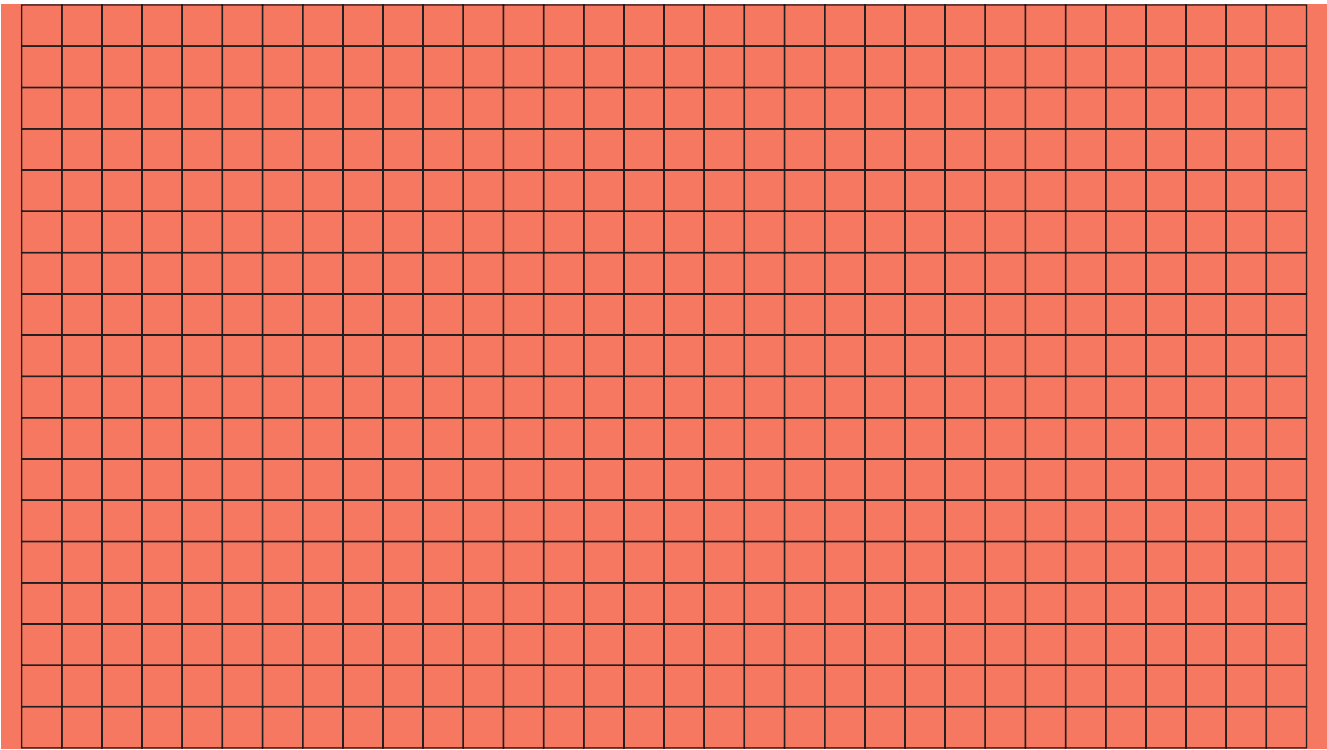

Layout system

We’ve built a layout system with flexibility, where our graphics system can be applied across various formats whilst retaining the integrity of the visual identity.

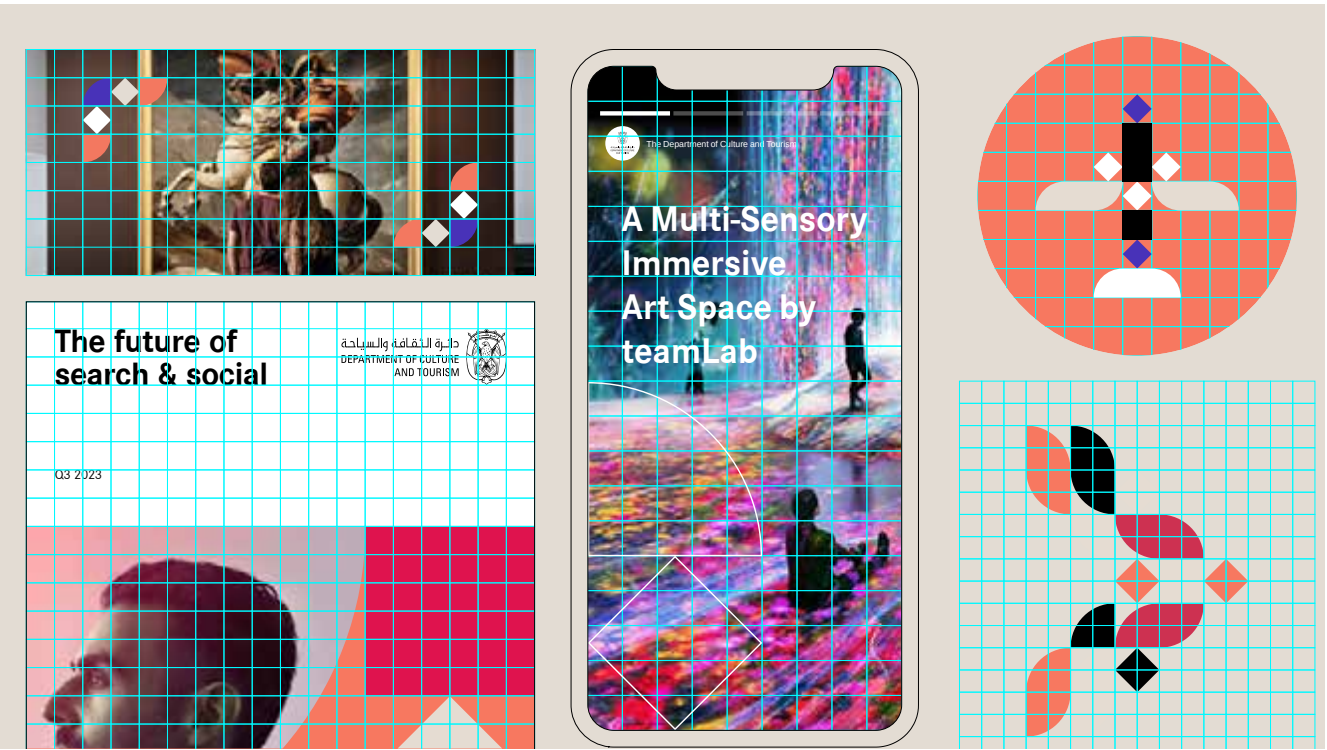

Three things you need to know about our layouts

- Contents
- Brand positioning
- Brand toolkit
- Logo
- Colour
- Typography
- Imagery
- Graphic system
- Layout system**
- Bringing it all to life

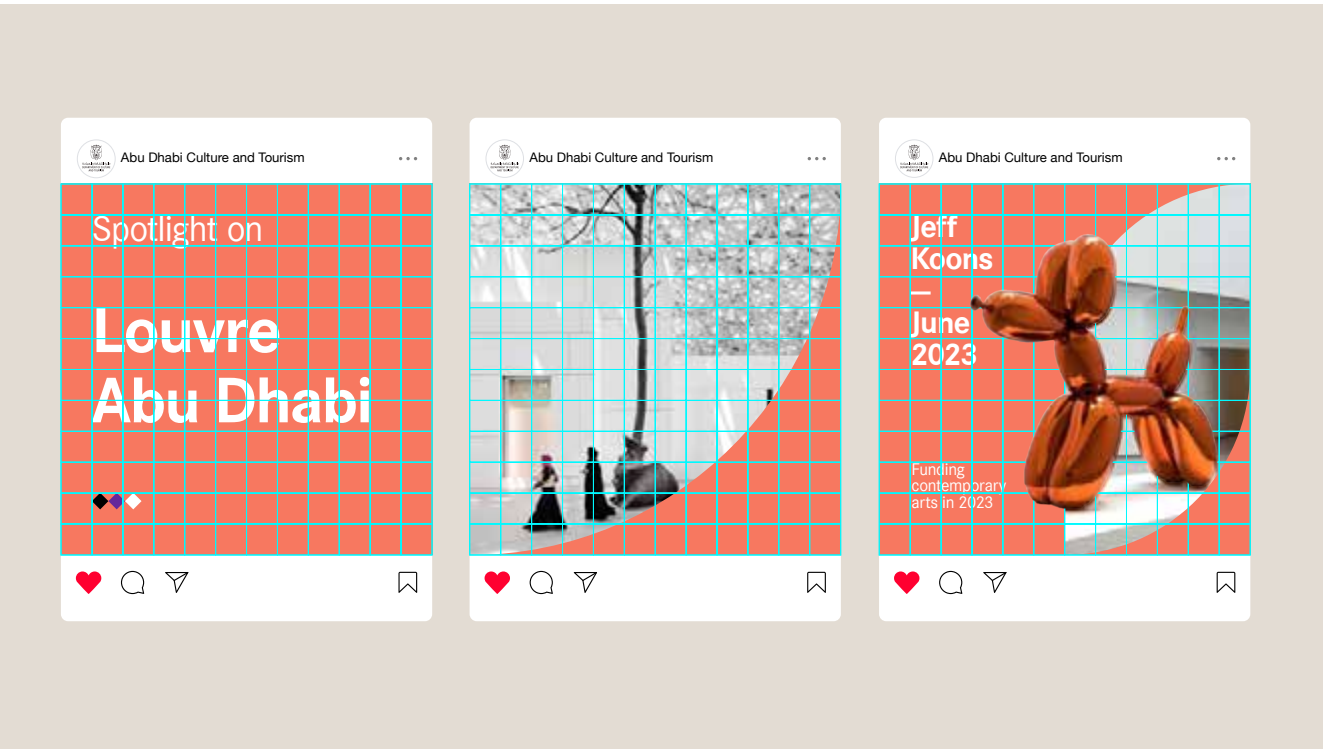

Square grid

Always use a square grid when working with layout design. It ensures we accommodate brand elements effectively and create a well balanced design.

Flexibility

To ensure our designs are consistent across multiple touch points, our grids help to unify varying applications by creating an ownable layout.

Balance

Our layouts should never be overwhelming. A less is more approach should be taken when designing. That means we should always strive to strike the right balance between each element.

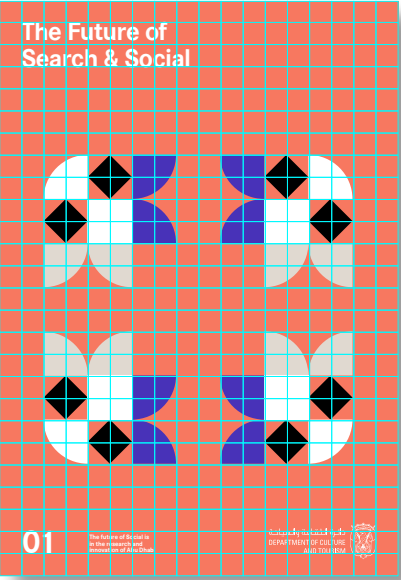

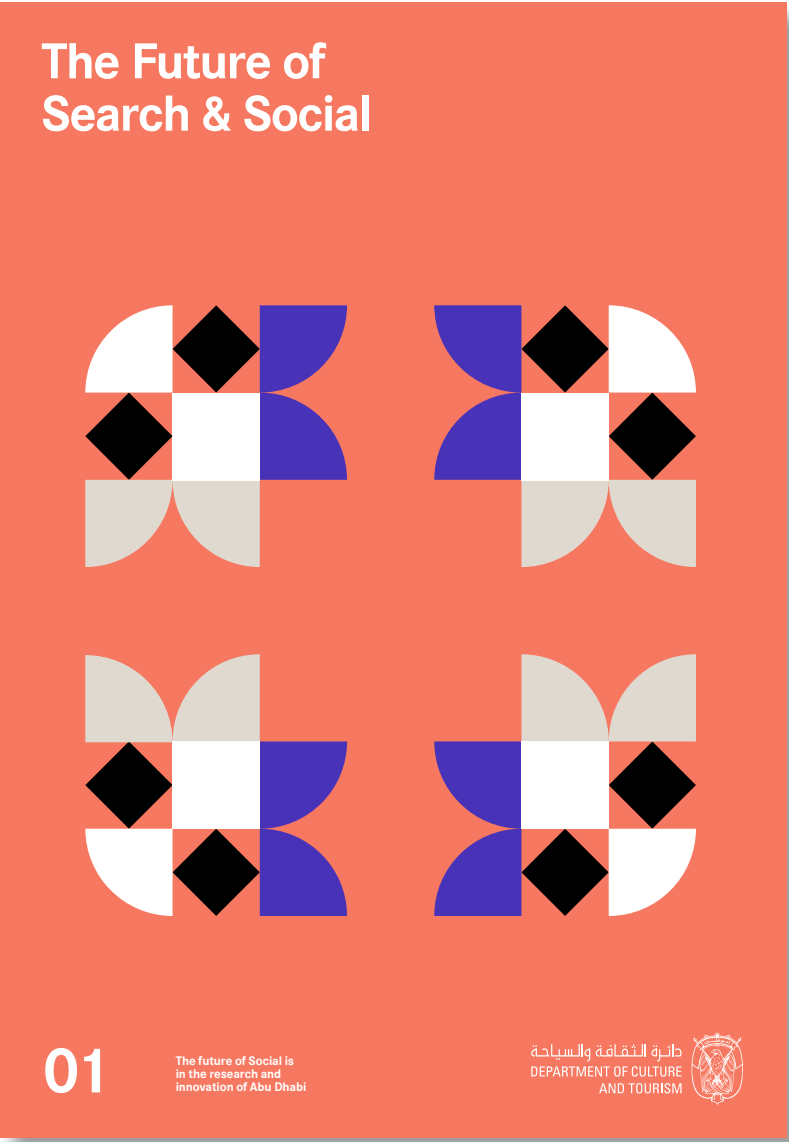

Grid possibilities

- Contents
- Brand positioning
- Brand toolkit
- Logo
- Colour
- Typography
- Imagery
- Graphic system
- Layout system**
- Bringing it all to life

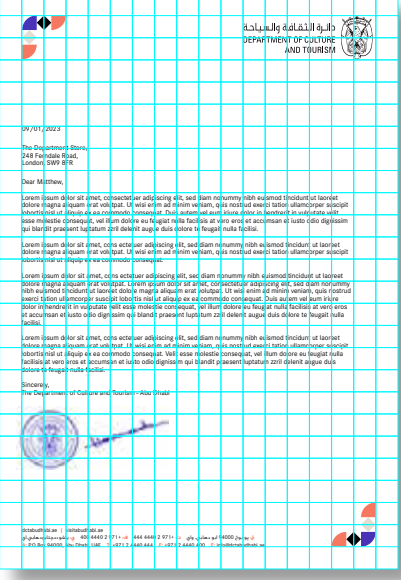

We’ve built a layout system with flexibility, our graphics system can be applied across publication covers in the following ways:

Having a grid system like ours allows us to create a multitude of dynamic layouts using our graphic elements. Our content can adapt and move around the layout, as long as the components always adhere to our squared grid.

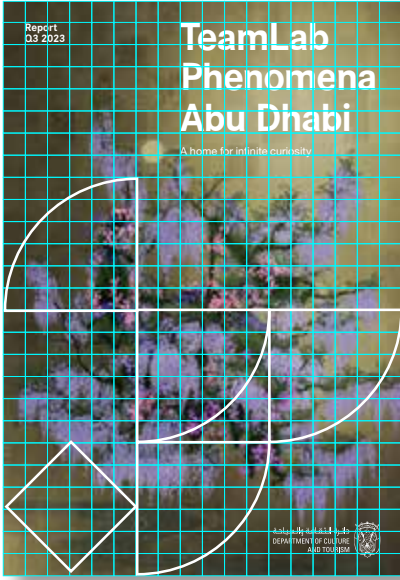

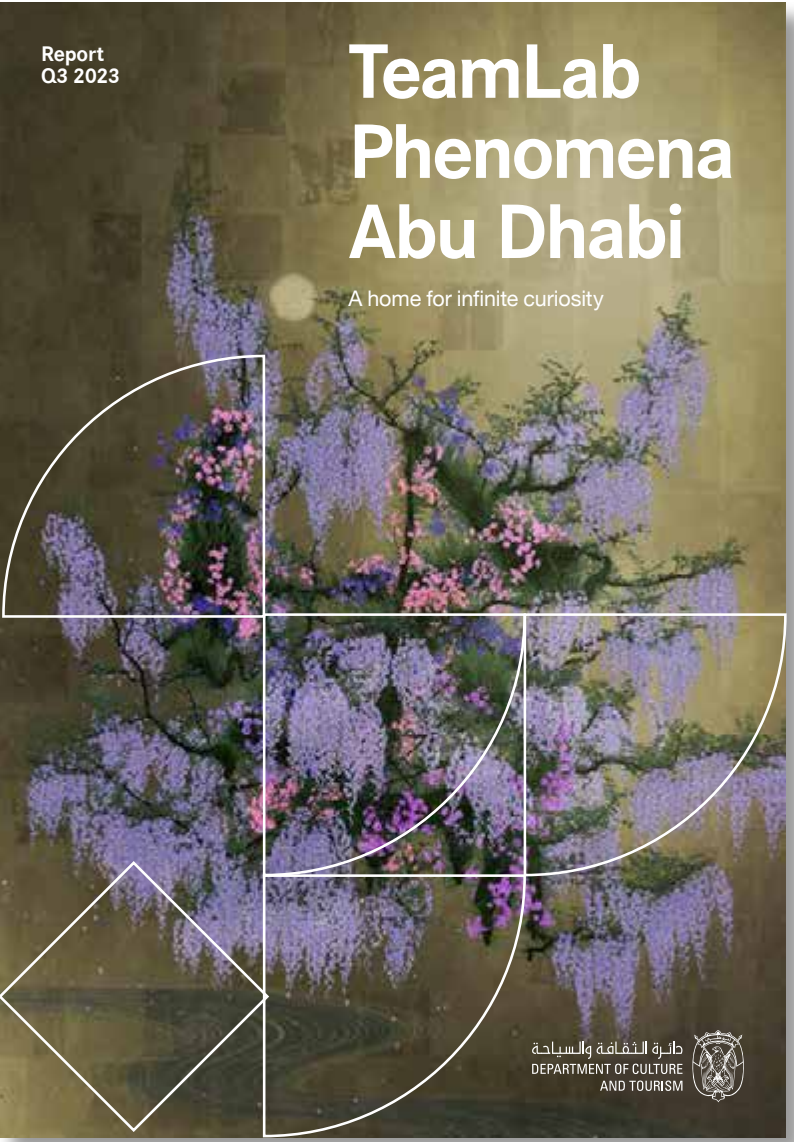

1. Full page pictogram

2. Supergraphic + image crop

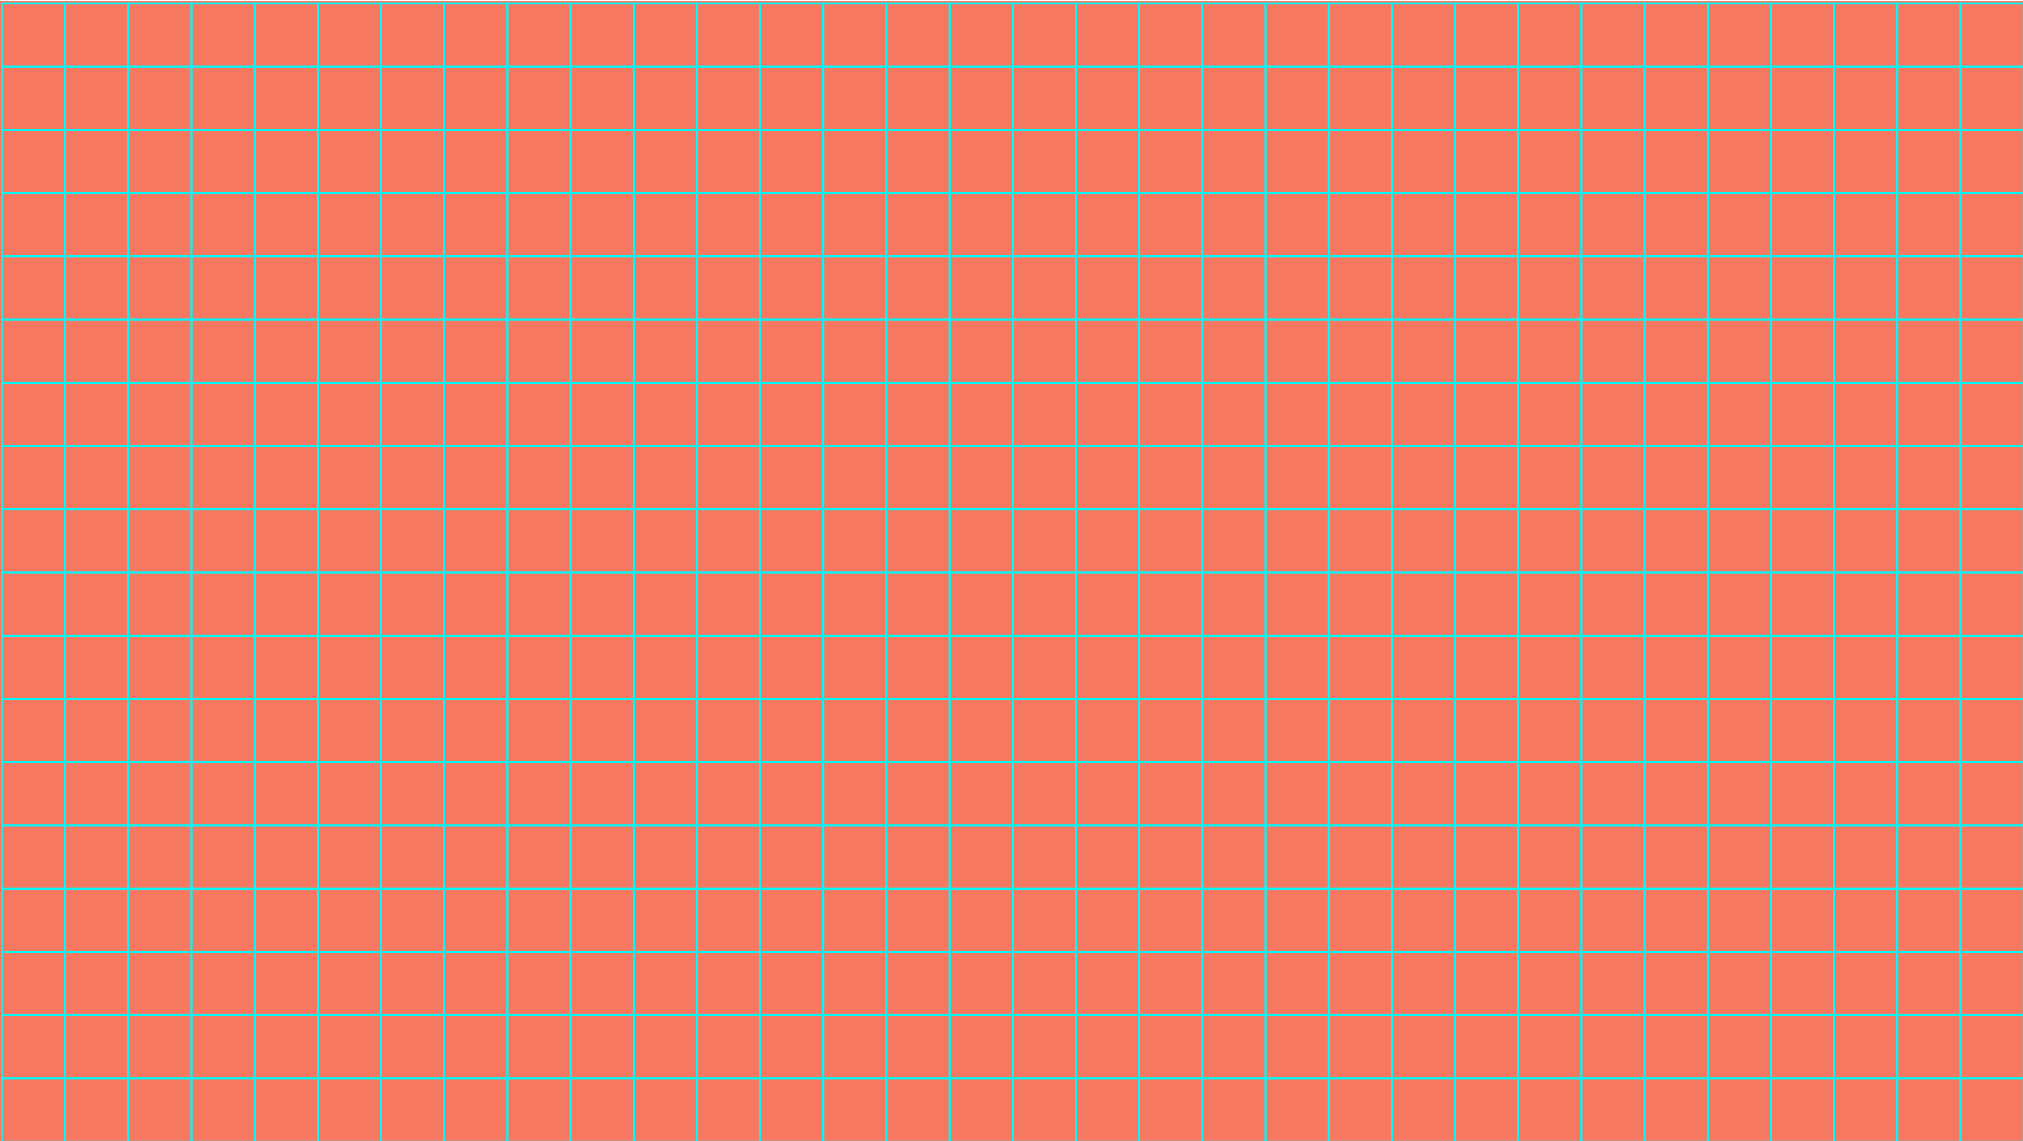

3. Full bleed image + keyline supergraphic

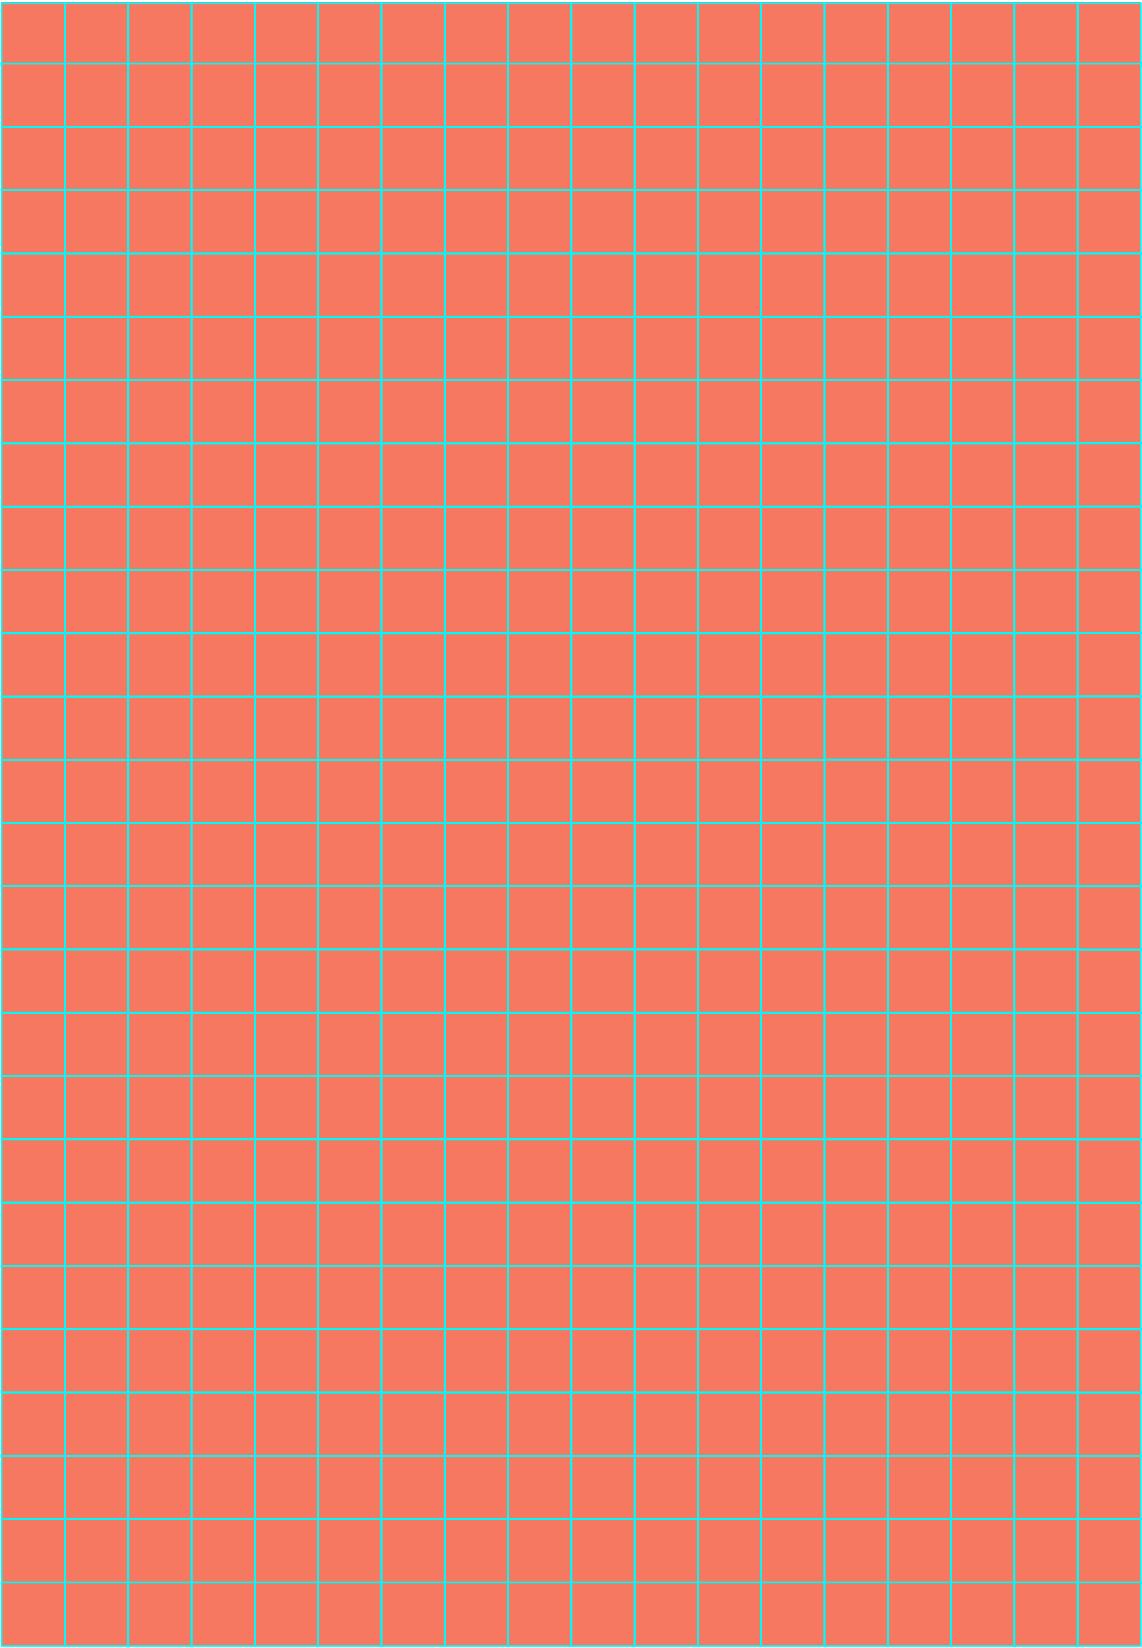

- Contents
- Brand positioning
- Brand toolkit
- Logo
- Colour
- Typography
- Imagery
- Graphic system
- Layout system**
- Bringing it all to life

Adapting our grid for various formats

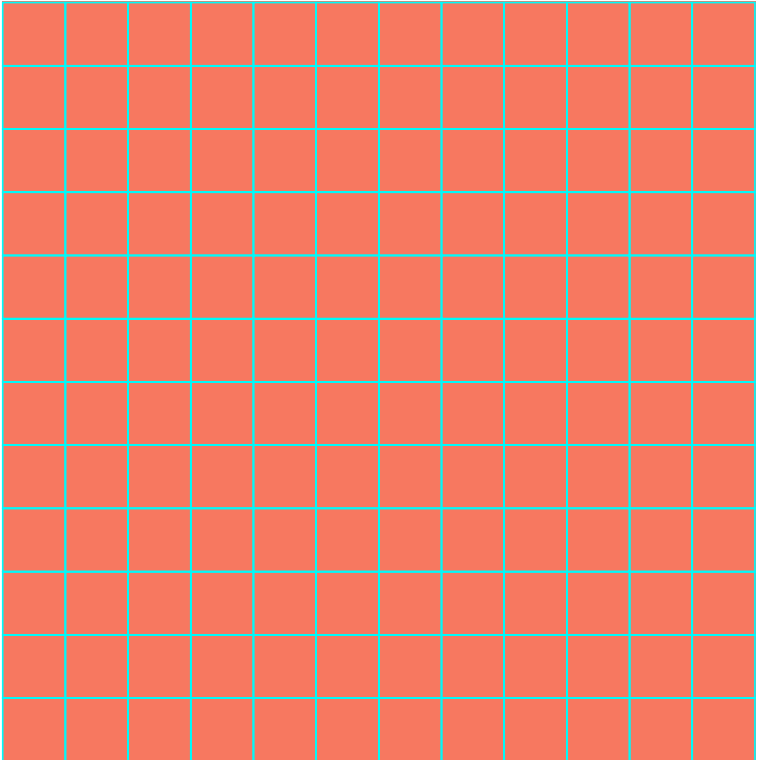

Our grid system is adaptable enough to be utilised across a variety of formats. Our squared grid can adapt to anything we design, whether for digital or print, portrait or landscape.

Landscape
32 x 18 grid

Portrait
18 x 26

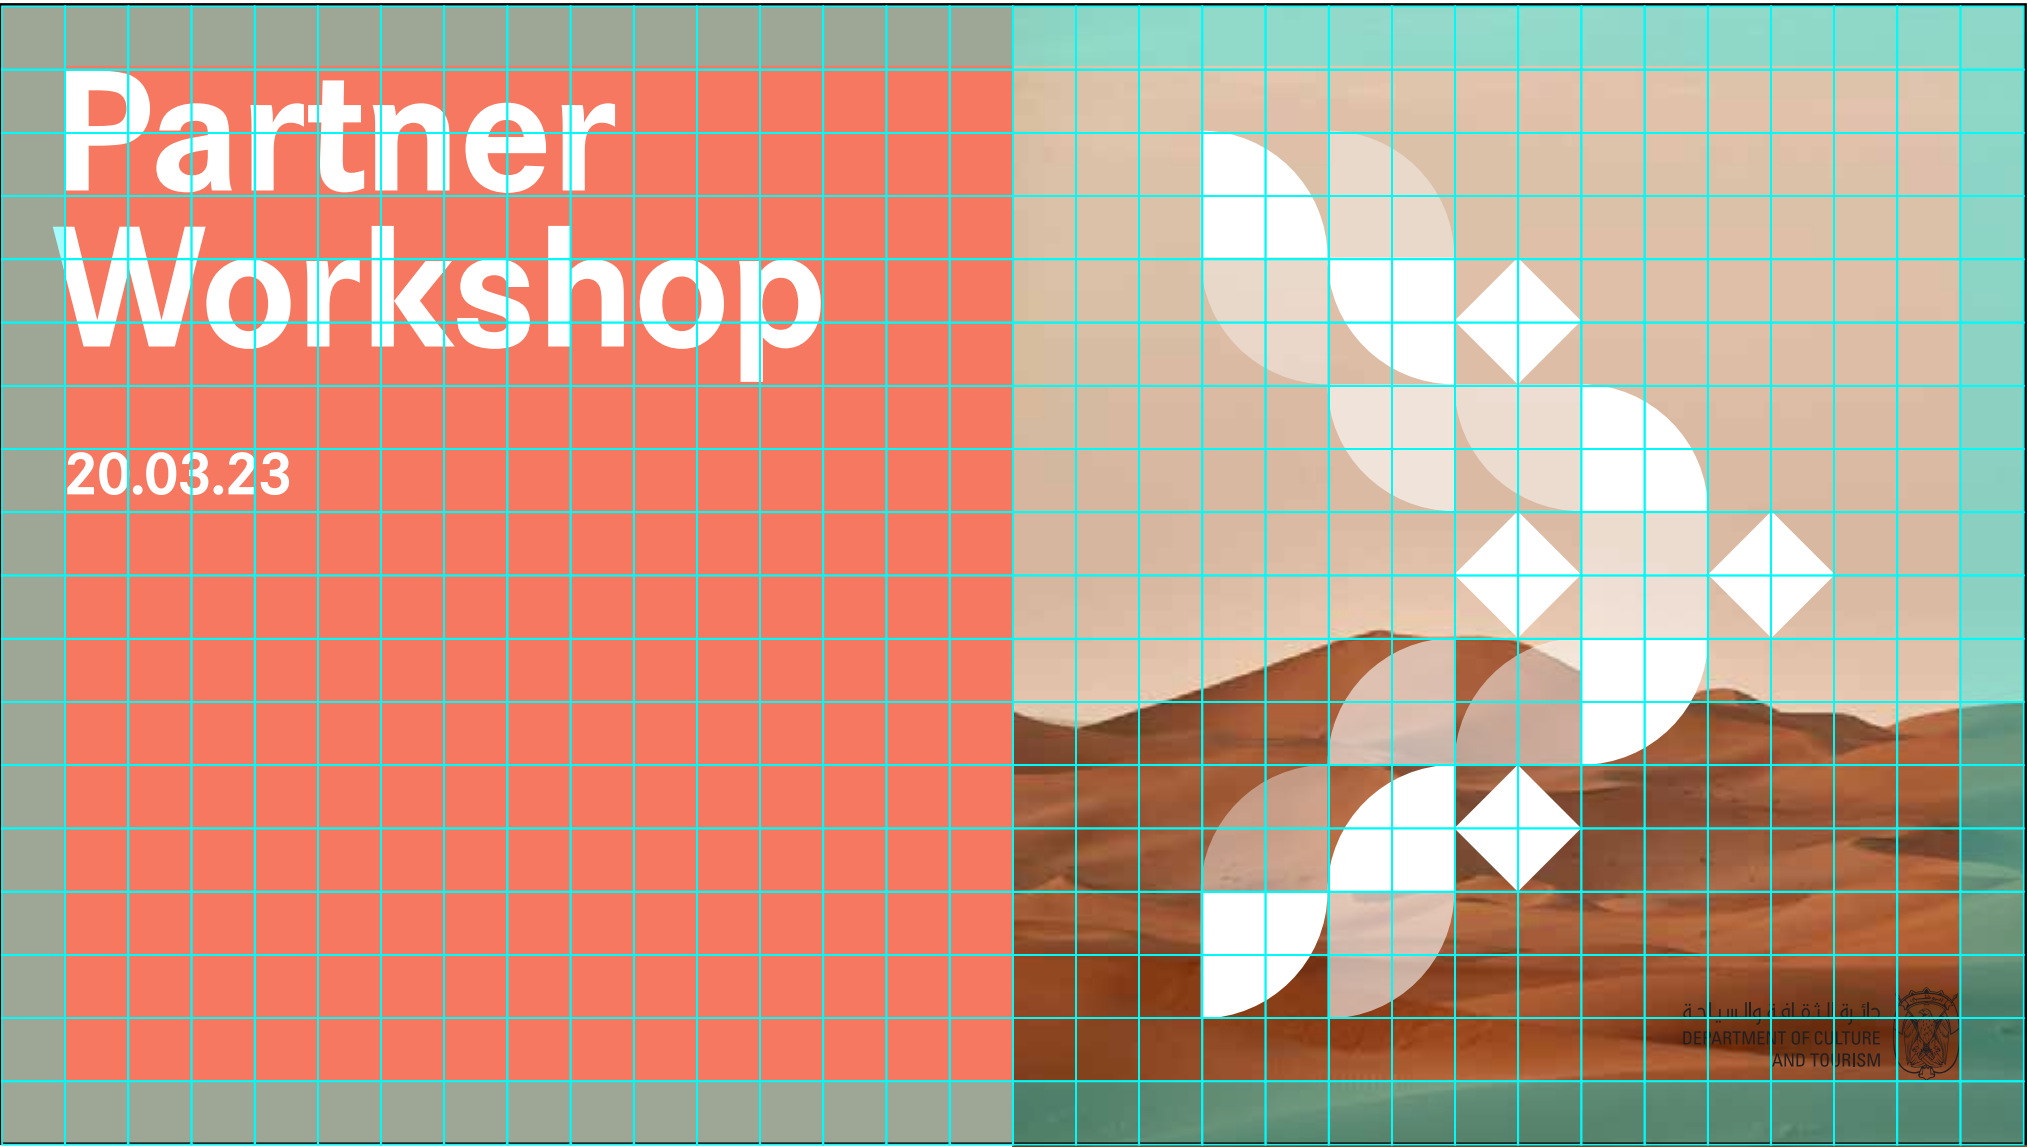

Square
12 x 12

Applying pictograms & icons

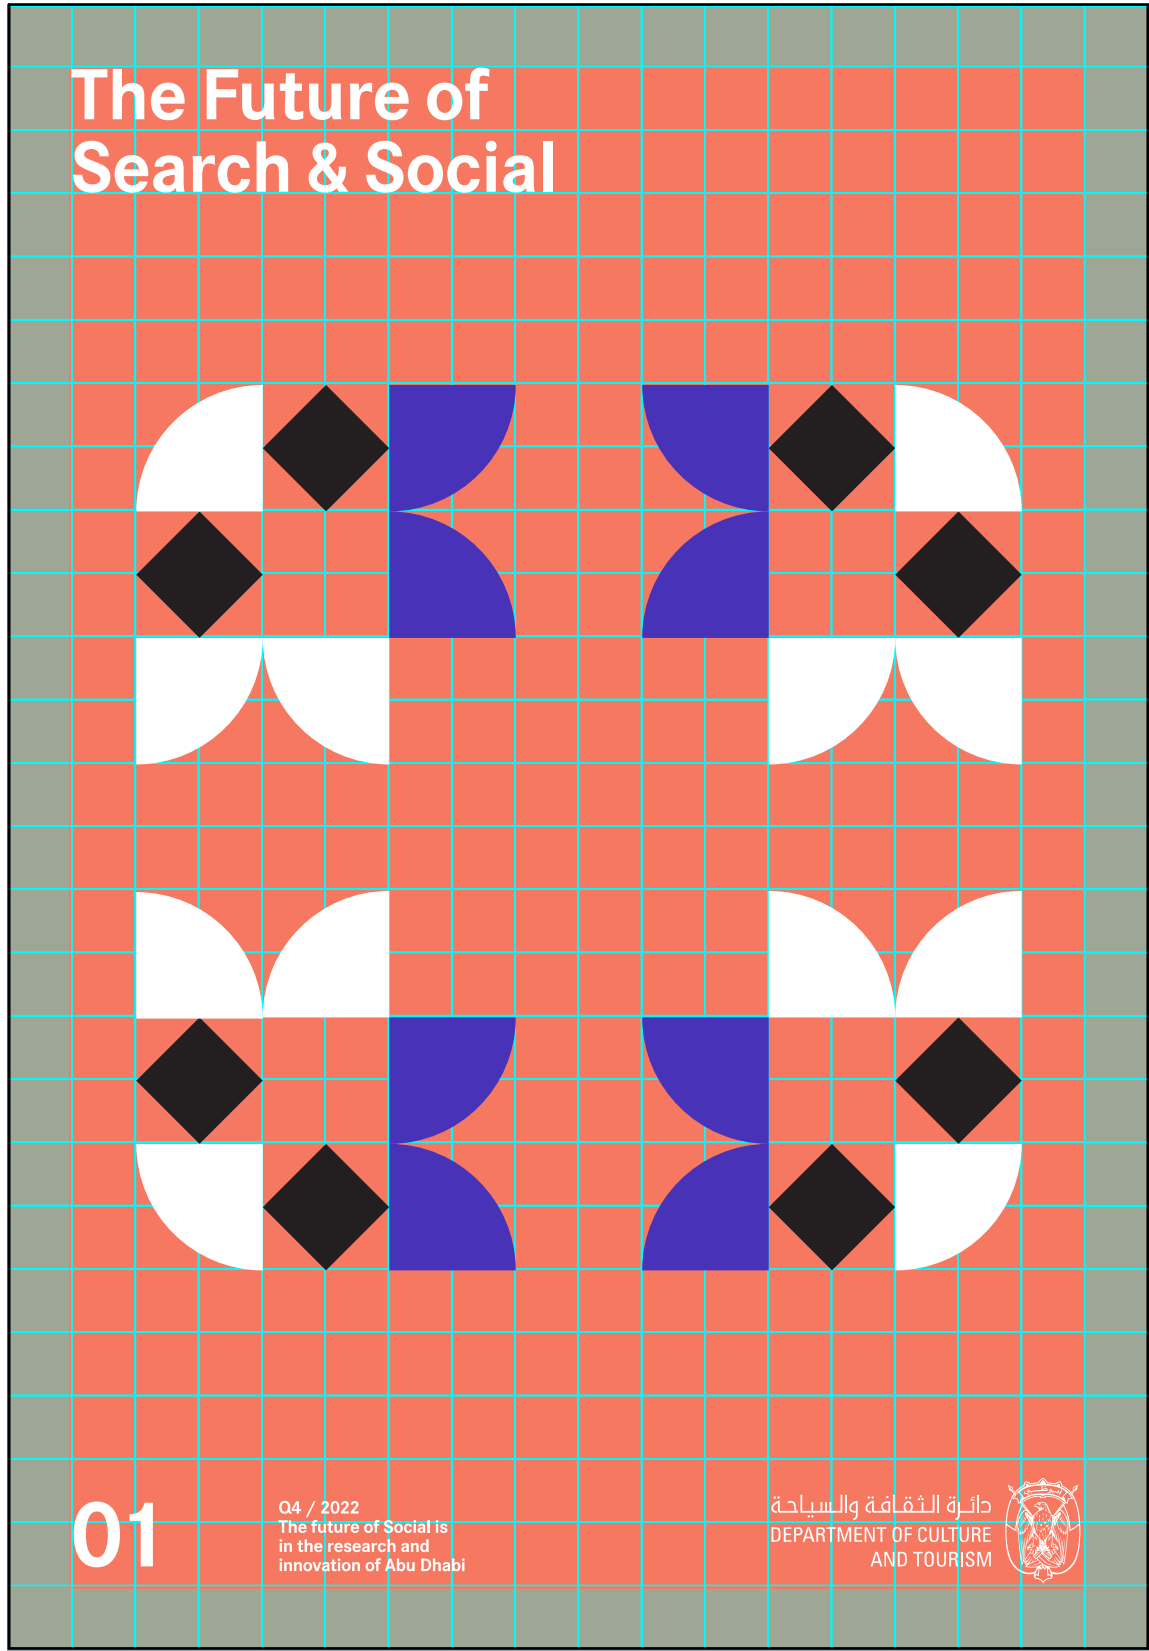

- Contents
- Brand positioning
- Brand toolkit
- Logo
- Colour
- Typography
- Imagery
- Graphic system
- Layout system**
- Bringing it all to life

Let's conclude

We've established a few guiding principles to ensure we treat our layout system consistently throughout the entire DCT brand.

Things to avoid

-  **Floating visuals**
Make sure everything you lay out snaps to the grid, this will make the layout feel intentional and structured.
-  **Elements that are too small**
Ensure the brand pictograms/icons/patterns sit well within the grid and don't feel too small.
-  **Uneven safe space**
Always adhere to the safe area, especially when working with icons/pictograms and typography.
-  **Don't cram the layout**
Use a limited and harmonious number of elements within a layout, ensuring that it feels considered and respects the negative space needed for hierarchy.
-  **Crammed supergraphics**
Laying out Supergraphics should not feel like a mosaic, avoid using too many elements on a page.
-  **Change the grid**
Even when tweaking the grid for unusual formats, always adhere to the square structure.

Things to achieve

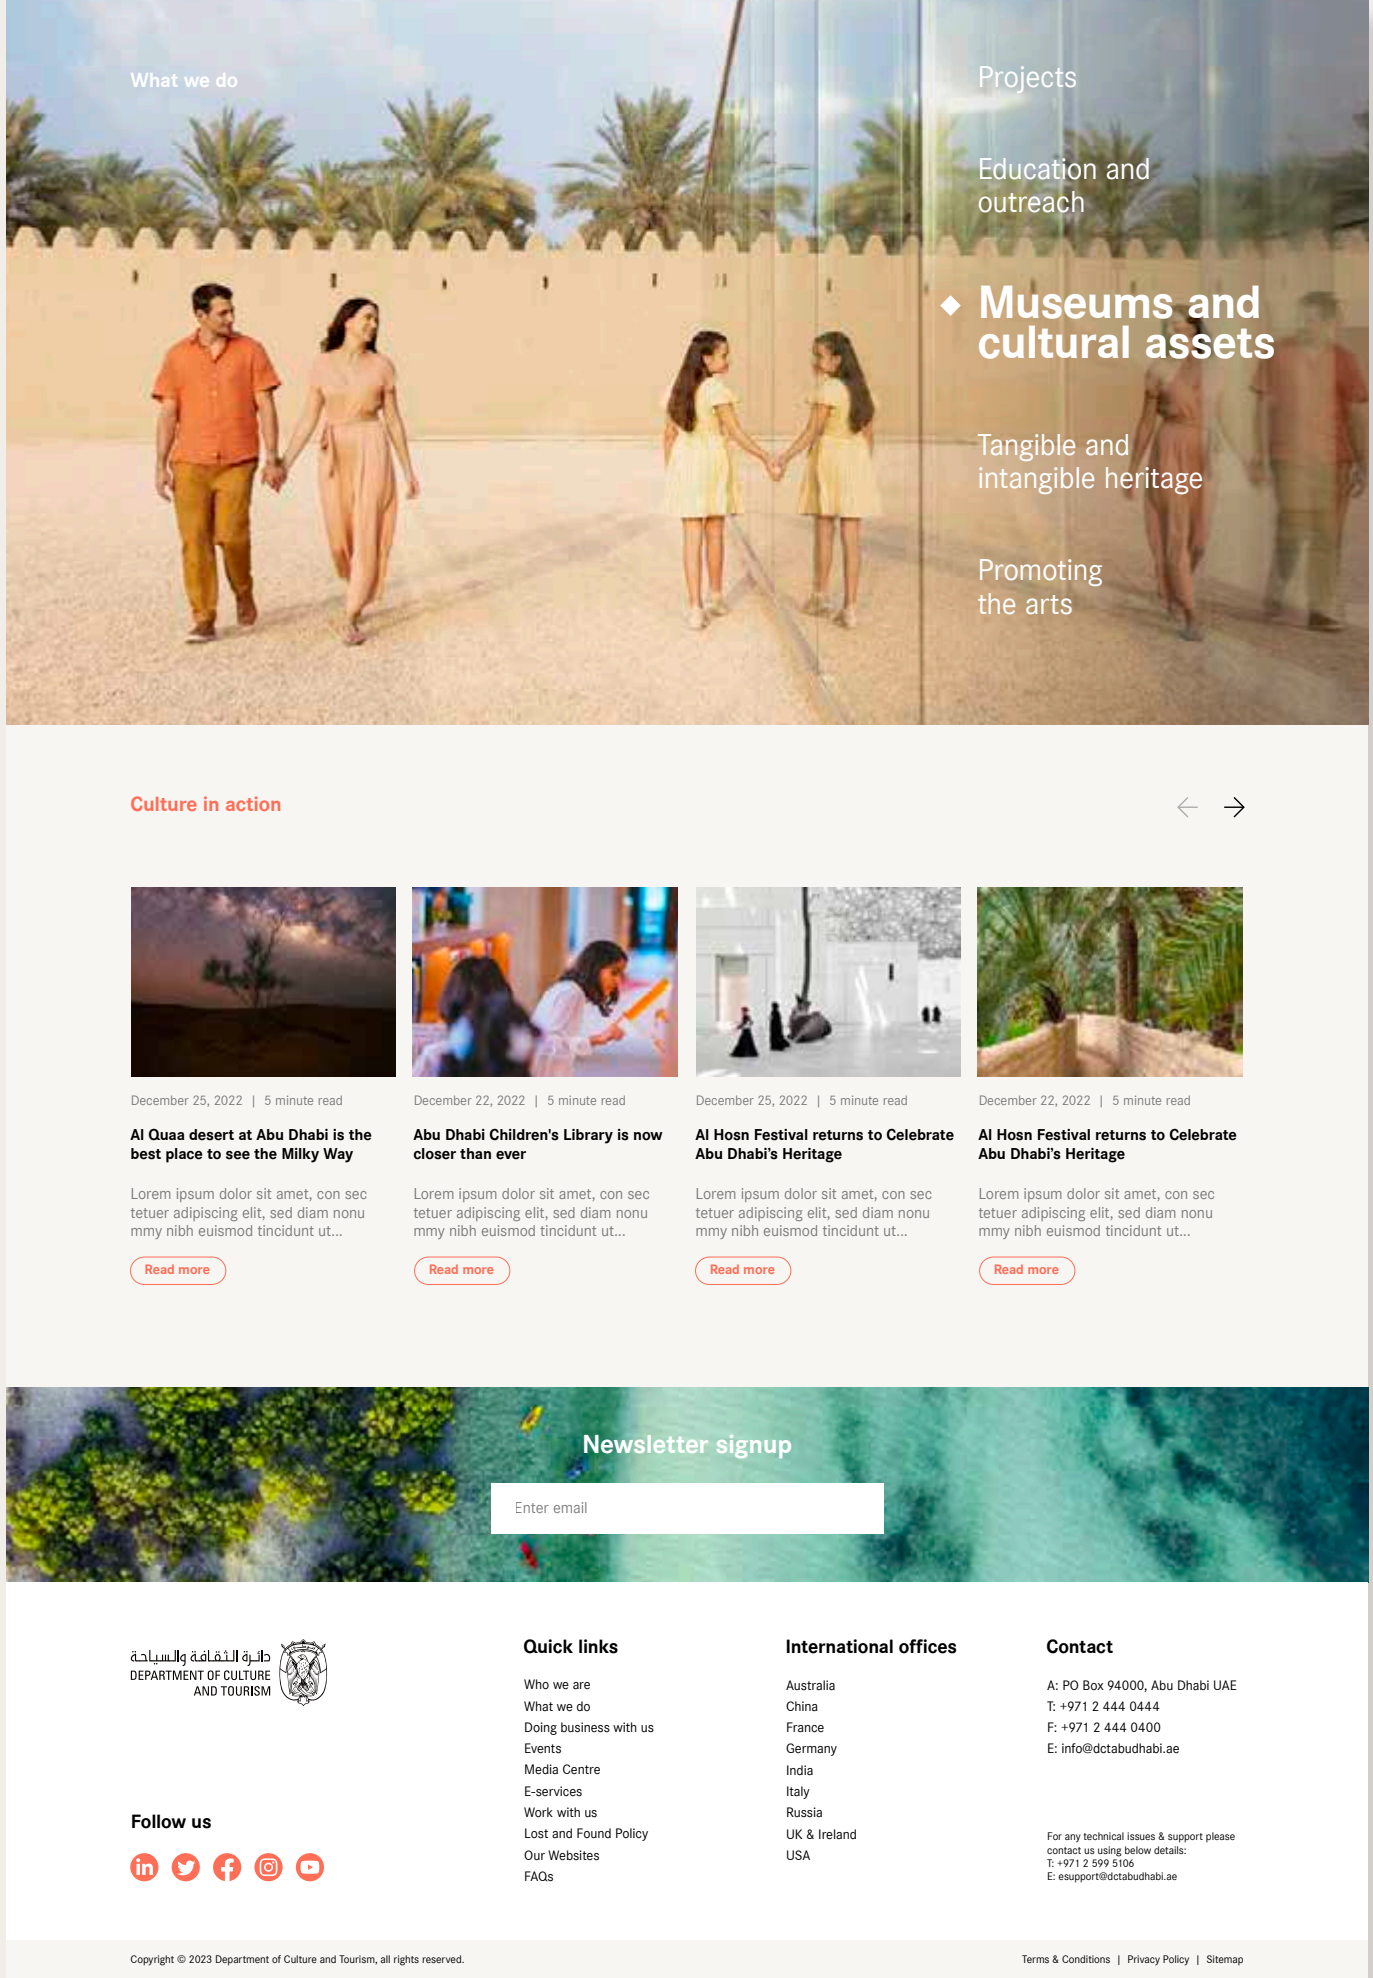

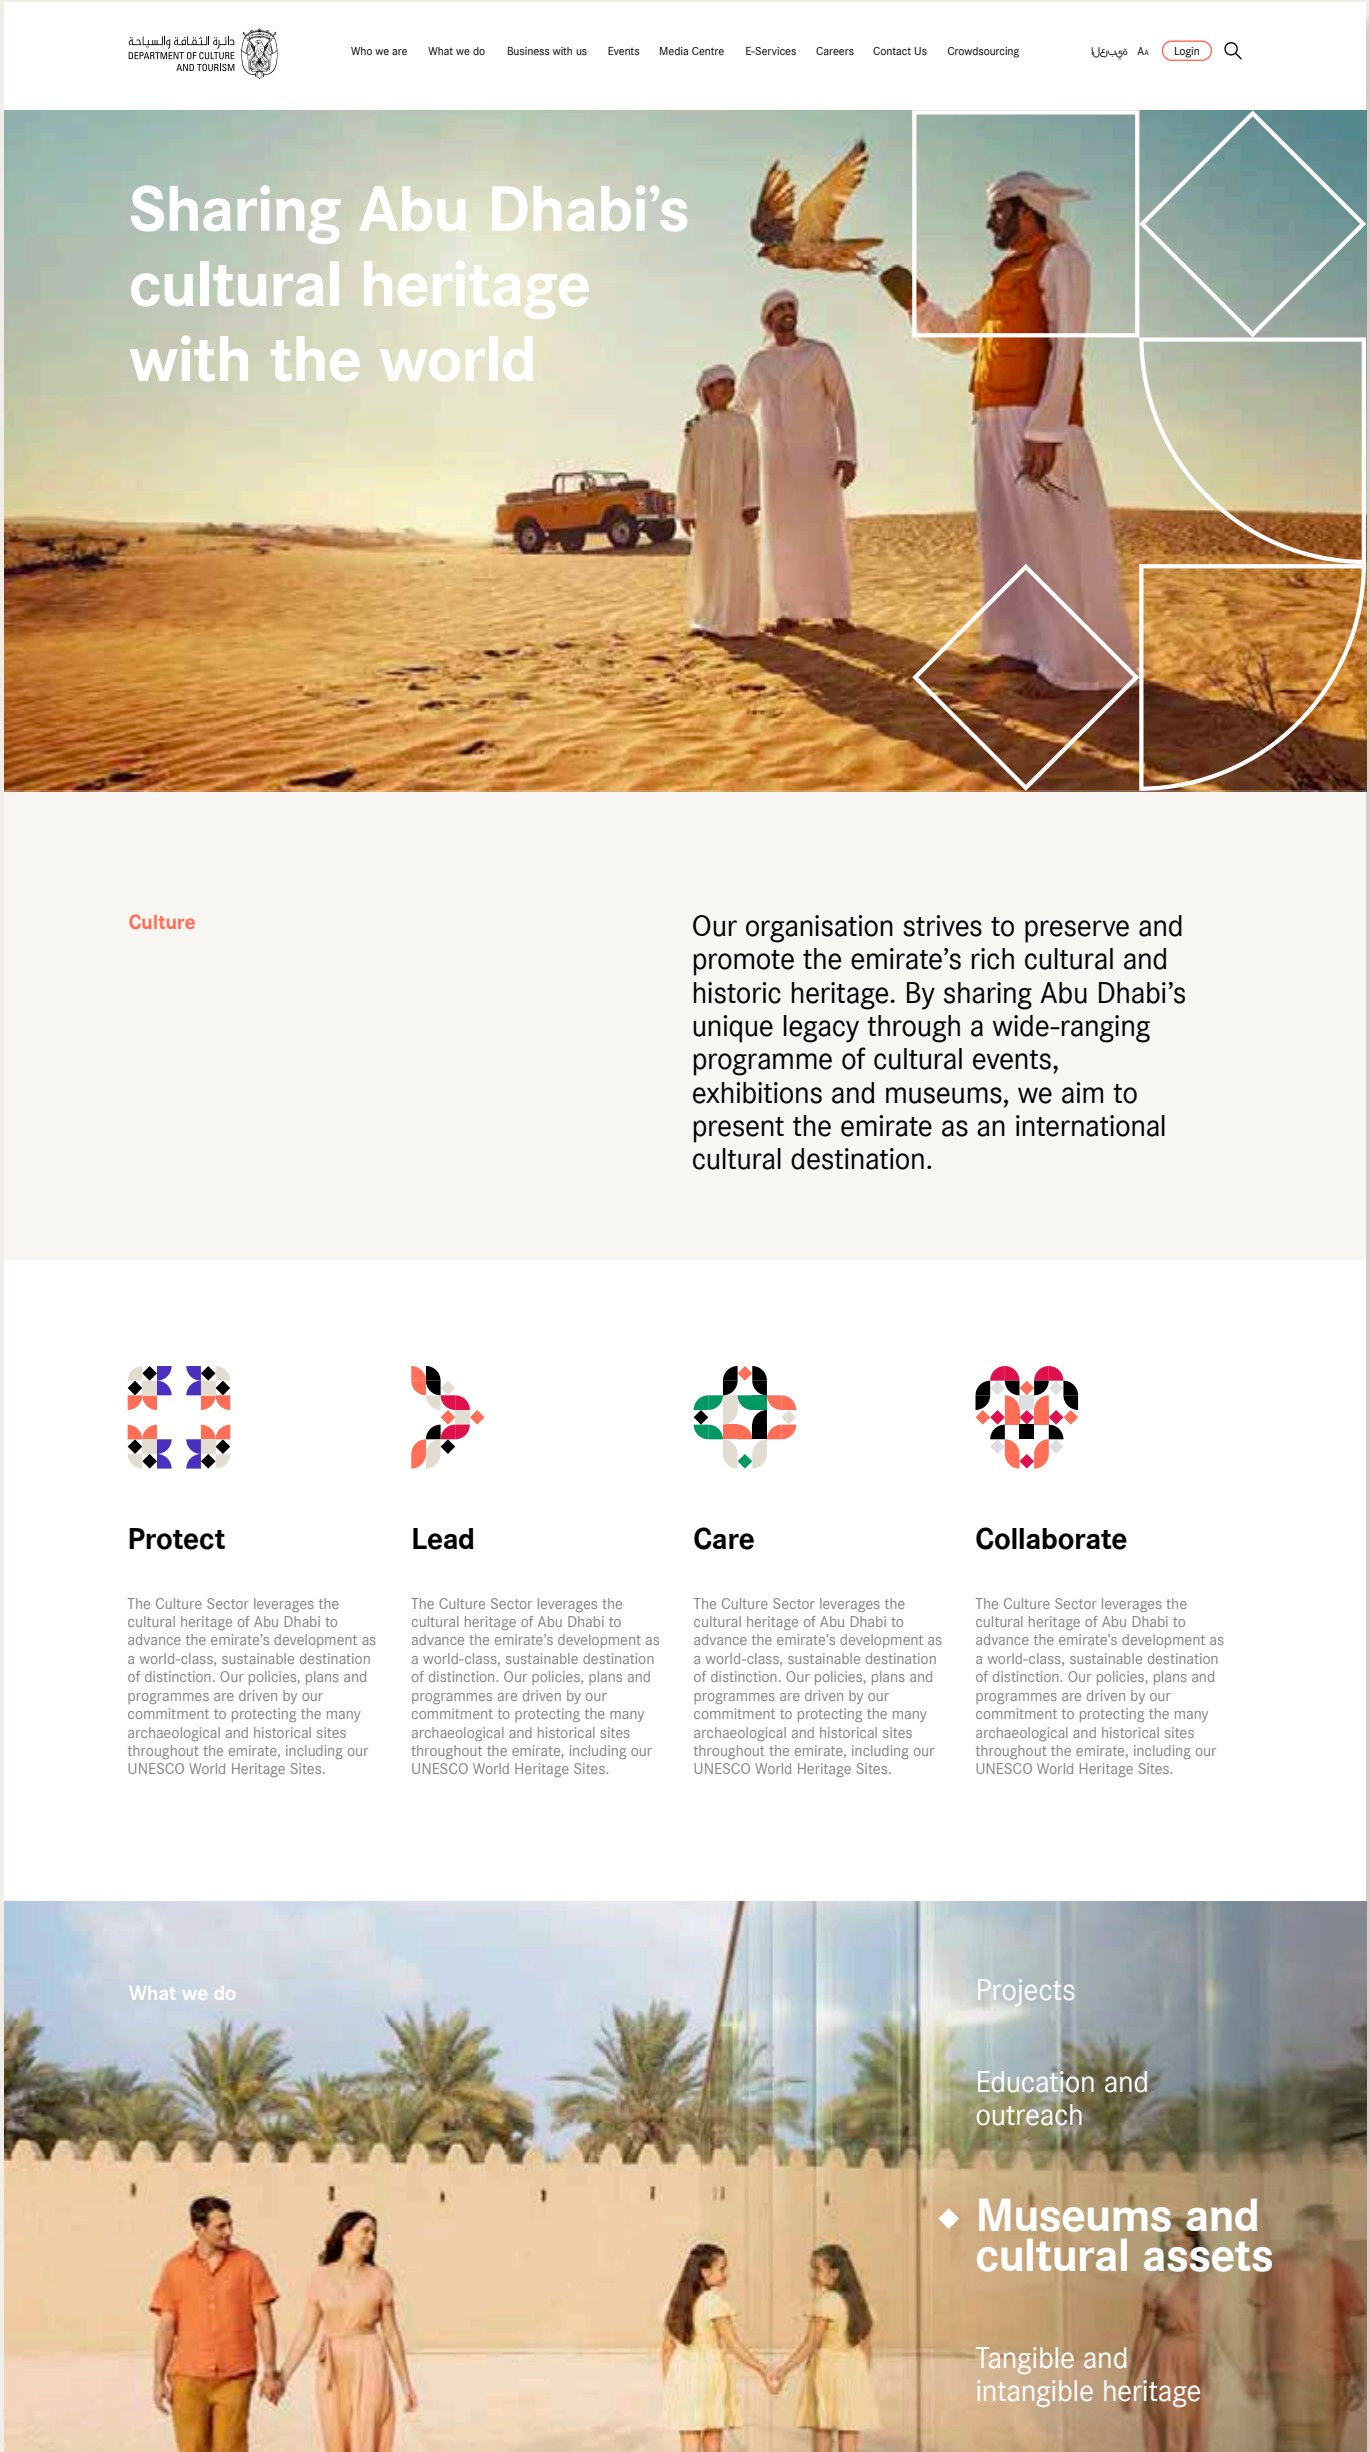

-  **Sophisticated layout**
Utilise the grid to create sophisticated layouts. Split copy across several columns, create tension with alignment.
-  **Clarity**
Create with the main message in mind, arrange objects in accordance with priorities.

أكتشف أبوظبي في ١٨٠ تجربة. حملة جديدة توضح وجود أبو ظبي على قائمة أمنيات الجميع.

لوريم إيبسوم هو ببساطة نص شكلي (بمعنى أن الغاية هي الشكل وليس المحتوى) ويُستخدم في صناعات المطابع ودور النشر. كان لوريم إيبسوم ولا يزال المعيار للنص الشكلي منذ القرن الخامس عشر عندما قامت مطبعة مجهولة برص مجموعة من الأحرف بشكل عشوائي أخذتها من نص.خمس قرون من الزمن لم تقضي على هذا النص، بل انه حتى صار مستخدماً وبشكله الأصلي في الطباعة والتنضيد الإلكتروني. انتشر بشكل كبير في ستينيات هذا القرن مع إصدار رقائق "ليتراسيت" البلاستيكية تحوي مقاطع من هذا النص، وعاد لينتشر مرة أخرى مؤخراً مع ظهور برامج النشر الإلكتروني.

تعمل دائرة الثقافة والسياحة -أبوظبي على تنظيم القطاع السياحي والثقافي لإمارة أبوظبي وتطويره. عبر الترويج لإرثها الثقافي ومعالمها السياحية والطبيعية المتنوعة، فضلاً عن الخيارات الترفيهية العائلية التي توفرها لزوارها، مما يسهم في تعزيز مكانتها كوجهة سياحية عالمية متميزة ومستدامة.

تسهم الدائرة بتحقيق التنوع الاقتصادي في أبوظبي بما يتماشى مع أهداف ورؤية أبوظبي ٢٠٣٠، حيث تعمل على التنسيق مع كافة الأطراف المعنية والشركاء بهدف بناء مجتمع ثقافي يلعب دوراً محورياً في صون التراث الثقافي وحفظ القيم الأصيلة للإمارة، فضلاً عن استقطاب الاستثمارات المحلية والعالمية من خلال الترويج لأبرز المقومات السياحية، وزيادة أعداد السياح، وتحفيز معدلات النمو لدعم مكانة الإمارة كوجهة سياحية وثقافية متميزة.

Bringing it all to life

About the Department of Culture and Tourism – Abu Dhabi:
The Department of Culture and Tourism – Abu Dhabi (DCT Abu Dhabi) drives the sustainable growth of Abu Dhabi’s culture and tourism sectors and its creative industries, fuelling economic progress and helping to achieve Abu Dhabi’s wider global ambitions. By working in partnership with the organisations that define the DCT Abu Dhabi’s position as a leading international destination, DCT Abu Dhabi strives to unite the ecosystem around a shared vision of the DCT Abu Dhabi’s potential, coordinate effort and investment, deliver innovative solutions, and use the best tools, policies and systems to support the culture, tourism and creative industries.

DCT Abu Dhabi’s vision is defined by the emirate’s people, heritage and landscape. We work to enhance Abu Dhabi’s status as a place of authenticity, innovation, and unparalleled experiences, represented by its living traditions of hospitality, pioneering initiatives and creative thought.

عن دائرة الثقافة والسياحة – أبوظبي:

تعمل دائرة الثقافة والسياحة –أبوظبيي على تنظيم القطاع السياحي والثقافي لإمارة أبوظبي وتطويره، عبر الترويج لإرثها الثقافي ومعالمتها السياحية والطبيعية المتنوعة، فضلاً عن الخيارات الترفيهية العائلية التي توفرها لزوارها، مما يسهم في تعزيز مكانتها كوجهة سياحية عالمية متميزة ومستدامة.

وتشرف الدائرة على تطوير استراتيجية سياحية شاملة للإمارة بما ينعكس إيجاباً على المواطنين والمقيمين على أرضها وزوارها على حد سواء، وذلك من خلال دورها المتمثل في صياغة التشريعات والقوانين المتعلقة بالقطاع السياحي في إمارة أبوظبي، والمحافظة على إرثها الثقافي والتاريخي.

السادة المحترمين

تضم هيئة أبوظبي للسياحة والثقافة ثلاثة قطاعات رئيسية هي قطاع السياحة، قطاع الثقافة وقطاع دار الكتب. تسهم هذه القطاعات الثلاثة في العمل على تطوير دور الهيئة التنظيمي الداعم في ترسيخ مكانة أبوظبي العالمية والترويج لها كوجهة سياحية مستدامة رائدة، عبر تقديم تجربة سياحية وثقافية مميزة للزوار والمجتمع تنسجم مع رؤية أبوظبي الاقتصادية ٢٠٣٠، من خلال مجموعة واسعة من الأنشطة والفعاليات الرئيسية، مع المحافظة على تراث وثقافة الإمارة.

ولكم جزيل الشكر،

دائرة الثقافة والسياحة
